

STUDEX® *UNIVERSAL*
ear piercing system

For over four decades, the STUDEX® name has signified trust and safety in ear piercing around the world. With over 30 offices worldwide, STUDEX® is recognized on six continents as the world's largest manufacturer of ear piercing studs, instruments, and after care products.

STUDEX® ear piercing systems and hypo-allergenic earrings are manufactured at our state of the art facility located in Los Angeles, CA U.S.A. STUDEX® ear piercing studs and hypo-allergenic earrings are created using U.S. made surgical stainless steel, karat gold or titanium raw materials. Our engineers and designers work together utilizing the latest in manufacturing technology to offer the very latest in fashion with the highest quality to consumers. Once completed, every earring and instrument passes through a stringent quality check process to deliver the safest, most beautiful ear piercing products available.

As the global ear piercing leader, STUDEX® is committed to safe ear piercing around the world. We adhere to rigorous health and safety standards for our products and employees. As a result, all STUDEX® sterilized ear piercing studs meet or exceed US FDA (Food & Drug Administration) regulations and E.C. (European Confederation) standards.

Design Pressure Spring

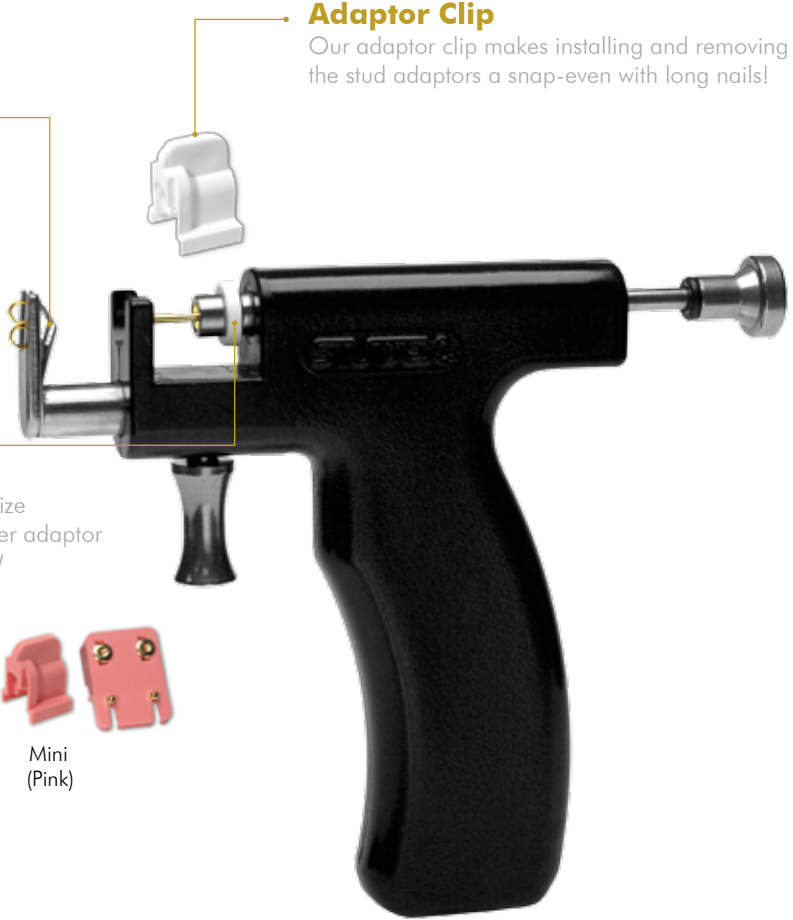

Our pressure spring applies gentle pressure on the earlobe to keep it in the right place. It also ensures the clasp is properly loaded in the clasp retainer.

Adaptor Clip

Our adaptor clip makes installing and removing the stud adaptors a snap-even with long nails!

Color Coded Stud Adaptors

It's easy to tell the size of the stud adaptors. A color coded collar on the adaptor indicates the stud size it fits. No more guessing and hoping you have the proper adaptor installed-*if it is the right color, it is the right size adaptor!*

Sterilized Ear Piercing Earrings

Studex earrings exceed all F.D.A / E.C requirements and are sealed and sterilized in individual packages.

EAR PIERCING EARRINGS

Most styles are also available in "White" stainless(W). See order form for details.

Y: Gold Plated **W:** Stainless Steel
