

Tuf-tite Riser Installation:

1. Use Ramset or Tapcons to fasten tank adapter ring to tank top. Add butyl seal to bottom if desired
2. Add riser sections as needed using butyl seal in bottom of each layer (if desired)
3. Fasten each section using stainless steel screws
4. Add safety lid (yellow) if desired
5. Add safety pan and inner concrete lid if desired

- Riser diameters available in 20" and 24"
- Riser sections available in 3" (safety pan), 6", and 12"
