***This is why we love
SMC***

Music to our ears...

“I want to thank SMC, I was very impressed. Everyone was so friendly, professional, efficient and KIND. Wow. I am so overwhelmed with how wonderful this place truly was to me. I felt more sincere concern for my well being and overall health at Smith than at any other doctor’s office/hospital in my life. That place ROCKS!! Thank you so much. I left there feeling like they cared. Just completely impressed. Such a wonderful organization. I am just so impressed...THANK YOU!!!”

Support the clinic: Every \$1 donated generates nearly \$10 in healthcare services.

Volunteer! All skills needed. Contact Dina Wells at;

Agencies Collaborate to Address Community Needs

This is a collaboration like no other! Recently, Precious Blood Catholic Church was teaching an adult literacy class and felt that some of the 25 students were struggling to read due to poor vision. Knowing that Smith Clinic and the Lions Club are involved with vision care, they asked for help. The Lions Club volunteered to do a preliminary screening for all 25 students. As a result, eight of the 25 students were referred to Smith Clinic for a full eye exam. Since all of them were Spanish-speaking, Smith Clinic called on Jason Roberson, Assistant Rector at Holy Cross Episcopal Church to provide interpreting services during their exams. All 8 students required glasses and were thrilled to be able to choose their own frames from a large selection. The glasses will be provided for them free of charge.

“We are very grateful to the Lions Club for their partnership and support,” says Anne Faul, Executive Director. “They are true partners, as demonstrated in this project.” Eye sight is one of the many things Lions Club does for their community. They get involved not only financially but through service. They care for their neighbors, community members and help by assuring that the well being and the health of families are taken care of.

Dr. Cathcart Smith

“ For years, I had suggested to many retirees who had come under my care that they should consider retiring to something rather than from something.”

Smith Medical Clinic was established in 1985 by Dr. Cathcart Smith and his wife Nancy in an 8-foot wide trailer with office and medical equipment from Dr. Smith's former medical office. Initially, Dr. Smith recruited five retired doctors and a dozen nurses to volunteer at the Clinic. This volunteer model has become a Smith Clinic tradition. Today, over 200 volunteers, aided by a small, part-time staff and financial support from our community, provide complete medical care for over 2,000 low-income, uninsured, Georgetown County residents a year for
