Smith Medical Clinic is now giving COVID Vaccines

In other news, Smith Medical Clinic began administering the Moderna COVID-19 Vaccine in April with great success. With the help of a wonderful team of volunteers and nurses, the clinic has vaccinated 178 patients so far! The vaccine clinics are held at the Pawleys Island location and patients are required to make an appointment to receive their first dose, and then a second appointment is made 4 weeks later to receive the second dose.
