## The following are common traditions/games played at weddings.

*Please indicate any games/traditions you would like to have at your wedding.*

**Married Couple dance: (y/n) song: \_\_\_\_\_ time: \_\_\_\_\_**

All married couples are invited on the dance floor. Couples are released from the dance floor based on how long they have been married for. The dancing continues until the longest married couple is the last couple remaining.

**Song suggestions:** <https://www.brides.com/best-anniversary-dance-songs-4774523>

**Dollar dance: (y/n) song: \_\_\_\_\_ time: \_\_\_\_\_**

The dollar dance is an opportunity for guests to dance with the bride and/or groom. Money raised from this dance goes to the bride/groom. The maid of honor and best man are in charge of holding a pitcher in efforts to collect money from individuals who would like to dance with the bride or groom. The dollar dance is a great way for guests to congratulate the bride/groom and share memories.

**The shoe game: (y/n) time: \_\_\_\_\_**

The shoe game is a game for the bride and groom. The bride and groom sit back-to-back holding one of their shoes in one hand and the other's shoe in the other hand. A series of questions are asked such as "who will be in charge of the tv remote". The bride and groom will raise a shoe in the air representing who they think the answer belongs to not being able to see each other's responses.

All of our systems carry a wide selection of music that ranges from the earliest 1906 recordings to today's latest releases. We do not carry entire albums or discs, but the proven chart hit singles that everyone knows and is one of the widest, largest most up to date libraries in the area. Your professionally trained Disc Jockey will "read" the crowd and play the appropriate music to keep you and your guests entertained.

Please keep in mind that even though this is your day, that your elders (and elderly) may not have your same musical taste, not to mention whoever may be footing the bill for it. Our operators are trained to keep a balance, and these may not be played "back to back", but instead, spread thru the evening to where it best suits the crowd overall. The idea is to make it a memorable, pleasant, entertaining time for all.

Rule of thumb is we can usually fit around ten songs per hour and will work yours in as they fit. So for most newer music in a five hour reception you will hear around 50 songs total for the event. Around 70 if playing older music. Less than that for Disco and Techno and Classic Rock.

## Song Requests

Time has proven that variety is key, and nobody wants a steady diet of anything.
