OUR INDUSTRIAL-GRADE REELS ARE CONSTRUCTED TO ENDURE EVEN THE HARSHTEST CONDITIONS

INDUSTRY SPECIALIZED REELS

FIRE/RESCUE HOSE REELS

Fire and Rescue hose reels, featuring an electric motor or optional manual rewind, are critical components of any fire protection system. They ensure quick and reliable access to the tools needed to combat fires and protect lives and property. In addition to providing easy access to fire hoses, fire protection hose reels can also help keep hoses organized, preventing kinks and tangles that can reduce their effectiveness during a fire emergency.

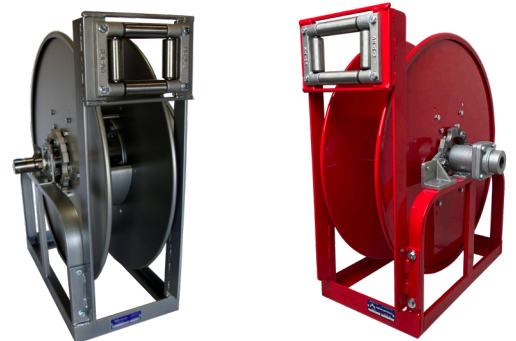

LP GAS HOSE REELS

LP Gas hose reels are specialized for the safe storage and dispensing of liquid propane gas in commercial and industrial settings, such as welding shops, service stations, and RV parks. Built with a durable metal frame and high-quality spool or drum, our motor driven or spring-operated reels are available in various sizes and configurations to meet different needs.

AIRCRAFT FUELING REELS

Our Aircraft Refueling Hose Reels with electric or spring operation are compatible with various fuel types, making them ideal for refueling, transfer, and dispensing. Constructed with premium materials and powder-coated for corrosion protection, our hose reels provide reliable, long-lasting performance in demanding environments.

CABLE REELS

BALANCE CABLE REELS

American Reels' balance cable reels are designed with a spindle-mounted drum supported by bearings and a spring mechanism for smooth cable retraction. They prevent accidents and keep cables organized while providing a clutter-free workspace. These reels are used in various industries and can be customized to fit unique requirements.

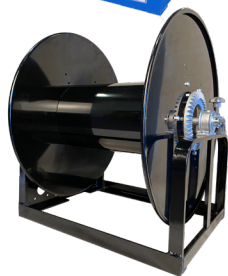

Lift	Travel Length
10 - 85 LBS.	8 - 30'

CABLE STORAGE REELS

Cable Storage Reels provide the ideal solution for organizing and storing wires, chains, and cables. Our cable reel is specifically designed to accommodate a wide range of cable types and sizes, including electrical cords, extension cables, and chains. The durable construction of the reel is made to withstand heavy use and exposure to the elements, ensuring longevity and reliability. Additionally, our reels are available in both manual and motorized rewind options to suit your needs.

Cable Diameter	Travel Length
1/2 - 1 1/2"	Up to 900'

STATIC DISCHARGE/GROUNDING CABLE REELS

Static Discharge/ Grounding Cable Reels are the perfect solution for safe and efficient grounding of vehicles and equipment in hazardous environments. When used correctly, these static discharge reels help to dissipate static electrical buildup, reducing the risk of sparking and potential explosions. The cable reel can be equipped with a spring or crank retraction, ensuring easy and safe storage of the cable when not in use.

Travel Length
25 - 100'

NEED A CUSTOM REEL?

Creating custom hose and cable reels requires both meticulous attention to detail and a steadfast dedication to quality. As a reputable and experienced manufacturer, we pride ourselves on delivering products that not only meet but exceed your expectations in terms of durability, strength, and functionality.

MANUALLY RETRACTED HOSE REELS

HAND CRANK REELS - DIRECT CRANK OR CRANK REWIND WITH PINION GEAR

Manual hand crank rewind hose reels are versatile for commercial and industrial use, requiring no external power source. They come in various sizes and can be mounted on walls, floors, or ceilings. Two types are available: Direct Crank (1:1) and Crank Rewind with pinion gear (4:1), which provides smoother operation with less force.

Hose I.D.	Travel Length
3/8 - 3"	Up to 400'

RIM REWIND HOSE REELS

At American Reels, we are committed to providing high-quality and durable hose reels that are perfect for various applications and easy to operate. Our Rim Rewind Reels are a reliable and efficient solution that can retract your hoses quickly and easily, without the need for a motor or spring.

Our Rim Rewind Reels are built to last and are the perfect solution for streamlining your industrial processes. They are easy to operate and can withstand even the toughest conditions, ensuring longevity.

Hose I.D.	Travel Length
1 - 3"	Up to 200'

MOTOR DRIVEN HOSE REELS

AIR/ELECTRIC/HYDRAULIC POWERED HOSE REELS

The motor-driven rewind reels from American Reels are an efficient and convenient storage solution for hoses. These high-quality reels are available in various sizes and configurations and are commonly used in industrial and commercial settings. With their automatic rewinding feature, these reels eliminate the need for manual labor, making them ideal for heavy use environments such as construction sites, mines and manufacturing facilities.

- **Air motor-driven hose reels** are powered by compressed air to retract the reel.
- **Electric motor reels** are available in various models such as 12V, 24V, 115VAC, and 230VAC with 12V models available in both explosion-proof and regular versions.
- **Hydraulic-driven motor hose reels** are designed to easily handle larger hoses, while the hydraulic motor provides sufficient power to retract and deploy hoses of varying sizes.

Hose I.D.	Travel Length
1 - 3"	Up to 200'

SPRING OPERATED HOSE REELS

HOSE REELS FOR AIR/WATER/LUBRICATION

Spring-operated reels are highly versatile and widely used in commercial and industrial settings to manage hoses for air, water, and lubrication. Available in a variety of sizes and configurations, these reels can accommodate different environments and work conditions. They are designed to retract the hose automatically when not in use, making them a convenient and space-saving solution.

Hose I.D.	Travel Length
1/4 - 1/2"	Up to 50'

LARGE VOLUME, HEAVY-DUTY HOSE REELS

Our spring operated reels for large volume or heavy-duty applications come in a variety of sizes and configurations to accommodate a wide range of conditions, such as the agricultural, construction, industrial lubrication, pressure washing, welding, fabrication and the maritime sector. These reels are operated by a coiled spring mechanism that provides the necessary tension to retract the hose or cable back into the reel when not in use.

Hose I.D.	Travel Length
3/8 - 2"	Up to 100'

HYDRAULIC TWIN (DUAL) HOSE REELS

American Reels' hydraulic twin hose reels are a perfect solution for enabling the transfer of power to your hydraulic equipment and tools at any required location. Our hydraulic twin hose reel is a high-quality device designed to meet the demanding needs of various industries, including construction, mining, and agriculture

Hose I.D.	Travel Length
3/8 - 1"	Up to 50'

DEADMAN CONTROL / SENSING REELS

Deadman control reels are a reliable and innovative solution for handling hoses in industrial settings. One of the key benefits of our deadman control reels is their safety features. The system includes a deadman switch that immediately stops the reel in case of an emergency, preventing accidents and injuries. Additionally, the system is designed to reduce the risk of hose kinking or tangling.

Hose I.D.	Travel Length
1/4 - 3/8"	Up to 100'

PRODUCTIVITY SPECIALIZED REELS

CARPET CLEANING REELS

Our carpet cleaning hose reels come in a range of sizes and configurations to suit any setup. We also offer models with integrated solution reels, which can help streamline your cleaning process and reduce the amount of equipment you need to carry.

All of our hose reels feature a smooth, easy-to-operate winding mechanism that makes it simple to wind and unwind your hoses quickly and efficiently. You can choose from manual or optional motor rewind, which will make your carpet cleaning process even more organized and streamlined

OXYGEN & ACETYLENE HOSE REELS

American Reels' oxygen and acetylene hose reels are designed to store and dispense hoses used in welding and cutting processes. The oxygen and acetylene hoses are typically used together in oxy-acetylene welding and cutting, and they need to be stored properly to prevent tangling and damage.

Built for professionals, our oxygen and acetylene hose reels provide a safe and efficient solution for your welding and cutting needs.

PAINT SPRAY REELS

American Reels' paint sprayer hose reels are an essential tool for anyone who regularly uses a paint sprayer. They help prevent tangled hoses and are perfect for body shops and professional painters. Our paint sprayer hose reels are available in single hose or twin hose models.

Made from high-quality materials, our paint sprayer hose reels are built to last. They are designed to accommodate hoses of varying lengths and can support the weight of your sprayer, ensuring peace of mind.

Specifications are subject to change without notice.
