MimSoul^{MAG} NEXT WAVE

FOUR IRANIAN ARTISTS SHAPING THE NEW SOUND OF THE MIDDLE EAST

As the weekend fades, a new pulse rises from the Persian underground. These four releases capture the emotion, energy, and innovation defining the next era of electronic music, where each frequency tells a story of identity, courage, and evolution.

AYDINAT;01 & REJVANII | CATALYST [EP]

(MimSoul Records | Melodic Techno & House)

Within Catalyst, two producers merge precision with emotion, creating an atmosphere both nostalgic and futuristic.

“Incentive” opens with Atari-like tones, a playful yet haunting echo from the past, leading into layered synths that shimmer like machinery learning to feel.

“Stimulants” follows with a hypnotic drive and deep melodic flow, a sound designed for movement and introspection alike.

A sonic dialogue between heart and circuitry, perfectly in tune with MimSoul’s cosmic signature.

MOMOLA | CONTRAST

(Sounddissonance | Peak Time Techno)

A burst of raw, cinematic energy.

“Contrast” is a sharp interplay between darkness and release, heavy basslines balanced by glimmers of melodic tension.

A track built for late-night stages where every drop feels like ignition.

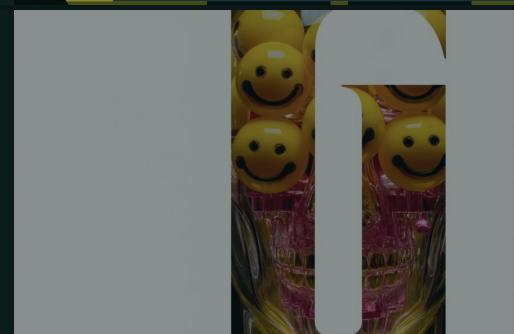

ASTRONAUT | JOCKER

(G-Mafia Records | Peak Time Techno)

Driven by the iconic dialogues of Joker from Nolan’s masterpiece, this track transforms chaos into rhythm.

Distorted voices and haunting synths collide to form a narrative between madness and control, a bold statement from one of Iran’s rising producers in the global scene.

MIMSOUL RADIO

THE PULSE THAT NEVER SLEEPS

WHERE TIME FLOWS IN RHYTHM AND
EVERY HOUR TELLS ITS OWN STORY

Broadcasting 24/7 in the digital realm, MimSoul Radio lives at the intersection of emotion and frequency.

Covering a wide spectrum of electronic sounds, from deep organic textures to energetic peak-time beats, the station curates its flow in harmony with the rhythm of the day. Mornings unfold in calm tones, nights rise with movement. Every hour holds a meaning; every transition tells a story.

At the heart of the radio lies Dayereh, a weekly podcast aired every Wednesday. The name Dayereh (meaning “circle”) carries layers of symbolism: an emblem of eternal continuity unity among artists, and a reflection of both the Earth and the MimSoul Galaxy. Rooted in Persian heritage, it also pays homage to an ancient Iranian instrument, bridging the rhythm of the past with the pulse of the future.

DO YOU HEAR THE VOICE OF YOUR SOUL?

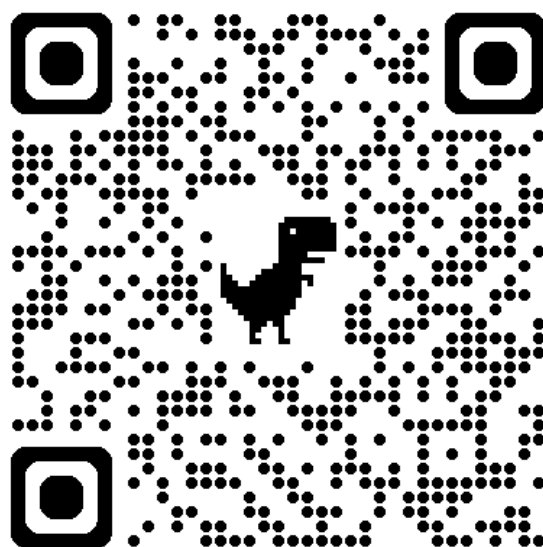

MimSoul Radio, not just a stream, but a living frequency of connection.

In just three months, Dayereh has hosted ten guest artists, each bringing a unique sonic world. Next week, MimSoul Radio will hold a special event, the Dayereh Marathon, a one-day broadcast featuring all ten episodes back-to-back. The episode with the most listeners will receive \$50 + 50 MimSoul Coins, while the most-viewed one on YouTube will earn 100 MimSoul Coins.

Yet beyond the prizes lies a deeper purpose: to build a bridge between the MimSoul team and emerging artists, and to offer DJs a truly international stage, a space where sound travels freely and connects souls across galaxies.

INTERVIEW

A CONVERSATION WITH ASTRONAUT

EXPLORING CHAOS, SOUND, AND THE SOUL OF

In the ever-expanding galaxy of electronic sound, Astronaut stands as a traveler, a seeker of frequencies beyond the familiar. His music balances emotion and structure, darkness and light, reflecting both precision and passion.

In this exclusive conversation with MimSoul Mag, we dive into his world, one where sound becomes a way to understand the self.

Q1. THE NAME ASTRONAUT EVOKES DISTANCE, DISCOVERY, AND ISOLATION. WHAT INSPIRED THIS NAME, AND HOW DOES IT REFLECT YOUR ARTISTIC IDENTITY?

A1. I chose the name Astronaut because I've always had an explorer's spirit. I want to discover the unknown, that's why I left everything behind to enter the world of music; a world I love deeply, where every track feels like a new voyage.

Q2. THERE'S A CONTROLLED CHAOS IN YOUR WORK, DARK, EMOTIONAL, YET PRECISE. DO YOU SEE SOUND AS ORDER WITHIN DISORDER, OR REBELLION AGAINST IT?

A2. My works differ greatly, some emotional, others dark and aggressive, because that's who I am: all or nothing. Music became my way to express my emotions without filter and reach the deepest parts of myself.

Q3. IN THE MIMSOU GALAXY, EVERY ARTIST HAS THEIR OWN PULSE. WHAT DOES MIMSOU MEAN TO YOU, A LABEL, A HOME, OR SOMETHING BEYOND THAT?

A3. For me, MimSoul is not just a label; it's a light from the future, showing me a beautiful yet winding path. MimSoul makes me love the journey more than the destination.

Q4. WHEN YOU START CREATING MUSIC, DOES EMOTION LEAD THE WAY OR SOUND DESIGN? WHAT SPARKS YOUR FIRST INSPIRATION?

A4. Sometimes it's emotion, sometimes it's sound. I might play for hours, translating what I feel into notes, like in See the Sun, which was born purely from emotion. Other times, a sound inspires an idea. But in the end, it's always emotion that leads the path.

Q5. IF YOUR MUSIC COULD CARRY A MESSAGE INTO SPACE FOR FUTURE LISTENERS, WHAT WOULD IT SAY?

A5. Live in the moment. Be aware of every rise and fall – and enjoy them. Life is like music, with its build-ups and drops; both are beautiful, if you understand the meaning of each moment.
