The Ormond Scenic Loop & Trail traverses some of the most beautiful and diverse natural scenery remaining in all Coastal Central Florida. There is ready access to the Atlantic Ocean, North Peninsula, Tomoka and Bulow Creek State Parks. The roadway view includes unobstructed vistas of creeks, marshes, dunes, and beaches. You can see those natural features balanced with over 200 years of history. There are several unique opportunities to view rare and protected wildlife on the beach. May-September is marine turtle nesting season, and December-April the right whale migrates off our coast to birth their calves. Recreational opportunities abound with numerous parks and trails offering boating, fishing, hiking, swimming, bicycling, beach walking and much more. Vast expanses of water and natural Florida scrub vegetation create beautiful scenic vistas waiting to be experienced.
