I am her.

RISEHER

Born and raised in the beautiful Islands of Trinidad and Tobago.

Colleen Williams always had a passion for writing poetry and short stories.

Her two releases Stop and Blinded By love (both can be found on amazon.com) was written out of the painful experiences she had to endure in her life.

Coming from a rough past, it was hard for her to trust and forgive again, after years of abuse.

Colleen has done numerous interviews, and has been featured in a few magazines worldwide sharing her testimony about how she went from Bitter and Broken to Beautiful and Blessed.

She has inspired many women to walk away from abusive relationships and to know their worth. She continues fighting for women in domestic violence situations.

She travels to prisons and battered women's shelter speaking to men and women letting them know if she can make it out so can they.

She now lives in Boston mass

When she is not writing she loves reading, traveling and teaching soccer.

I AM WOMAN

I WAS BORN TO MAKE A DIFFERENCE

I was told, "You're not ready to die until you have lived a life that outlived you, even after you are gone." I see myself in that situation as an advocate for women and domestic violence. I see how it affects the innocent children left behind. I was a victim of domestic violence a few times and I am blessed that my son was never left behind to suffer. Learning about these innocent children I took it upon myself to reach out I made a list of the children who lost their parents, I get their names, ages, and sizes, and in August I do a "Back to School" program where I collect school supplies, and anything the kids may need to have a stress-free school year as the get ready to go back out to school. As the Christmas holidays approach, I also do a toy drive to help put a smile on the face of children. These innocent children didn't ask to be here; they never asked for their parents' lives to be snatched away from them, they already must live without their mother and their father so whoever is responsible for them my job or legacy is to make it easier on them. I am that plug they look forward to when school starts and when Christmas comes. Due to covid, I could not do anything but with the grace of God I can start back as soon as things change. I know I was made to make a difference in this world. I know I am to continue in doing this while I'm alive and I pray long after I am gone my legacy lives on.

I was born to make a difference...and you are too!
