I AM WOMAN LIVING A LIFE THAT OUTLIVES YOU

In my younger years, there were so many times when I yearned to see earlier pictures of my older family members, such as, my parents, my grandparent, my great-grandparents; as well as my aunts and uncles. I wanted this so badly, that now my family knows that when we come together, WE are taking keepsake pictures. This is something so simple that can be done to outlive us for generations to come. There's a saying that say's, "A Picture Is Worth A Thousand Words." And even more important than a picture, is our kindness, care for others; compassion, and hospitality that will keep the warmth in the hearts you touch.

As authors and entrepreneurs, we have started sowing seed of insight, help, and encouragement in every book, article, or podcast that we have every done. These visions, whether big or small, will be etched in history, until the end of time.

So, make them memorable. When God comes for me, it is my goal to be totally used up by Him and have left nothing on the table that wasn't used for His Glory. Be intentional to build a strong foundation and legacy that will not only out live you but will outlive generation, after generation, after generation.
