TV Remote Controls

Remote controls for the televisions throughout the house are programmed for specific televisions and labeled by location. Please keep each remote in its proper location to ensure functionality.

Point the controller at the television and press the "On" button to turn on both the tv and cable. Use the "Guide" button to view channels.

Main Suite Remote Controls

The first floor Main Suite has different controllers. Use the red "Power" button on the black remote to power on the television and the white controller to power on the cable box and change programs.
