Foundation for
 Autism Care,
 Education and Services

13th ANNUAL
GOLF TOURNAMENT

BLACKHORSE
 GOLF CLUB

**Monday,
 March 16, 2020**

Autism spectrum disorders are a group of developmental disabilities that can cause significant social, communication, and behavioral challenges. The CDC estimates that an average of 1 in 59 children in the U.S. is on the autism spectrum.

ABOUT F.A.C.E.S.

The Foundation for Autism Care, Education & Services (F.A.C.E.S.) is a non-profit 501(c)(3) foundation founded in 2007 by Larry and Pat Wallace. It is the mission of F.A.C.E.S. to raise funds to directly support and promote education, services and Applied Behavior Analysis (A.B.A.) therapy for families faced with Autism Spectrum Disorder. The funding for the foundation comes from both public and private party donations, as well as fundraisers involving private individuals and organizations. A.B.A. is a treatment approach that focuses on increasing appropriate behaviors and celebrating successes and minimizing attention and energy wasted in inappropriate behavior. There is no therapeutic intervention that has been more studied or validated than Applied Behavior Analysis (A.B.A.) therapy. A.B.A. is a data-driven system of teaching that emphasizes breaking down skills into their component parts and teaching them using various prompting and positive reinforcement. A skill is considered mastered only after the data verifies that conclusion. By building related skills in a coordinated fashion, A.B.A. has been shown to have the physical effect of “re-wiring” brain circuitry in individuals with Autism Spectrum Disorder. In other words, therapy done the right way actually teaches children “how to learn.” Your partnership will help us continue our mission to assist families living with children diagnosed with Autism Spectrum Disorder and support professionals and organizations designed to service those in need.
