

To The Seawolf Privateers and ALL the Wonderful People and Businesses who join support of their Mission:

As a Foster Mom, words alone cannot begin to describe how important and needed your work is in support of our Foster Children. We need you, the children need you. They are in this through no fault of their own. Foster care does not feel incredibly hard because we are doing it wrong– it feels incredibly hard because it IS incredibly hard.

When our foster parents open their homes to an abandoned, abused or neglected child, many times in the middle of the night, everything must immediately spring into action. Many of these children, MANY, arrive with only the clothes on their back. And who is always there to lend a helping hand? The Seawolf Privateers.

As long as we have the support from you all through holiday parties, school supplies, clothing, donations, furniture, joining us at adoptions – we shall remain unwavering in our support of those little ones who have been forgotten.

When these children come together for one of your amazing pirate events it is bittersweet – children knowing each other from previous foster homes, children seeing their siblings who may have been placed in a different foster home, children doing arts and crafts, playing games, listening to a story, magic shows, opening gifts and of course lots of food and snacks.

Because of the confidentiality of these children, we cannot always share how much your support means to these children but I assure you it's the smiles, the laughter, and especially the normalcy you provide for them that changes their world and helps them not feel so alone.

You all are a treasure to the work we do.

For all of this, you never let us down. I shall remain steadfastly committed and pray that you will continue to join us to give these children a life they deserve.

Thank you all ever so much.
