Our full-service household goods moves are co-managed through **Relocation Management Resources (RMR)**. This relationship brings you and your client's competitive rates with individual attention, which provides a better overall moving experience. **RMR** manages a high volume of moves for a variety of clients including *McDonald's*, *Kraft*, *Pitney Bowes*, etc. They are able to leverage this volume to demand consistently high-quality service from each of their carefully selected vendors. This results in executive-level service for each customer, whether they represent a large group of corporate-sponsored moves or an individual moving across town.

CEND, our Eco-Friendly move partner, offers a multitude of resources locally and nationally. Options include smaller/lighter moves, containerized systems, storage, organizing, purging, staging, estate liquidation and more. **CEND** and **RMR** enable **FoxRelo** to be prepared for any situation.
