

INSTRUCTIONS

AGES 6+ | 2-6 PLAYERS

OBJECTIVE

Players roll 4-sided dice and place their game pieces onto the game board in attempt to form a 7-pieced flower, line, or stack. Players also use their game pieces to block other players.

SETUP

Each players starts with one 4-sided die and the following game pieces: 25 Bees, 12 Queens, 12 Stingers. If playing in teams, partners use pieces that are the same color.

GAMEPLAY

Players rolls their dice to determine who plays first. Player 1 rolls first and plays the game piece that corresponds to the number at the top of the die:

-  Place 1 BEE anywhere on the game board or on top of one of your own Bees.
-   Place 2 BEES anywhere on the game board or on top of your own Bees. The Bees must be played with at least 1 space between them.
-  Place 1 Stinger on top of another player's Bee or remove 1 Stinger. If there is no Bee to play onto, save the Stinger until an opponent's Bee is available.
-  Place 1 Queen anywhere on the game board.

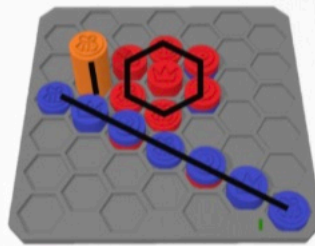

INSTRUCTIONS

WINNING

When a player occupies the game spaces that form a 7-piece flower, line, or stack they win the game.

If all of the game spaces are occupied with pieces before the game has been won, game play continues with one additional rule, when a player rolls a 4, they may remove an opponent's Queen and replace it with one of their own.
