

**Petition to immediately Repeal Bill 5 and to protect Ontario's Future
To; The Legislative Assembly of Ontario**

DRESDEN CARED PETITION
Citizens Against Reckless
Environment Disposal

WHEREAS: BILL 5, So-called "Protect Ontario by Unleashing Our Economy Act" gives Premier Doug Ford and/or any member of his cabinet sweeping to override environmental protections, silence local voices and ignore indigenous rights.

AND WHEREAS Bill 5 revives the same pro-sprawl, anti-community agenda behind the Greenbelt scandal, this time on a province wide scale.

AND WHEREAS BILL 5 allows politically connected individuals and corporations to by-pass environmental laws, planning rules, labour laws and democratic oversight through "Special Economic Zones".

AND WHEREAS BILL 5 weakens the endangered species act, environmental assessments and public consultation on major projects.

THEREFOR, WE THE UNDERSIGNED, PETITION the Legislative Assembly of Ontario as follows; To Immediately reverse BILL 5 and STOP Premier Ford's attempt to strip away environmental safeguards, override indigenous rights and dismantle democratic planning. We call for real investment into climate-resilient, affordable and inclusive communities - NOT a power grab and speculation and we call on this government to revoke the Dresden Landfill because of its close proximity to the town, waterways, businesses and homes which will jeopardize the lives and livelihoods of not just the community of Dresden, but potentially every Ontarian and First Nations people living downstream on the Sydenham River because of the pollutants and deadly chemicals that will be released into this community and its surrounding environment.
