

Stop the Dresden Landfill Expansion

TO THE LEGISLATIVE ASSEMBLY OF ONTARIO:

WHEREAS municipalities should have the right to refuse a project that could greatly impact the health and environment of their residents;

WHEREAS the Dresden landfill proposed site is within 1km of the town, as well as 1.5km to the local high school and 2.5km to the local elementary school, that serve the town and the surrounding community;

WHEREAS this project is a threat to the environment, the watershed and the endangered species of the area, with potentially damaging impacts to the nearby at-risk Sydenham River.

WHEREAS this project will increase traffic congestion and impact our local roads and infrastructure;

THEREFORE WE THE UNDERSIGNED petition the Legislative Assembly of Ontario to immediately hold the expansion of the Dresden landfill site and investigate other methods and sites to dispose of the Greater Toronto Area and Southern Ontario's waste.
