

Dresden C.A.R.E.D firmly opposes harassment, slander, or hate speech directed towards any individual. We are committed to upholding principles of respectful and kind communication, particularly when engaging with government officials.

We encourage others to maintain these standards and do not support those who fail to do so. Below, you'll find a contact table as well as examples of questions or requests.

Before contacting any individual, we highly recommend that you educate yourself on the topic and communicate respectfully. This document is provided as a resource to assist you.

Group/Organization:	Number:	Email:	Topic + Question Suggestion and Examples:
St. Clair Conservation Authority	519-245-3710	stclair@scrca.on.ca	<p>Environmental impact of said proposal</p> <p>Public health and safety</p> <p>Non-compliance Regulations, will the proposed site meet regulations?</p> <p>Community Concerns</p> <p>Insufficient Waste Reduction and Diversion Efforts</p> <p>Lack of Proper Environmental Assessment - requesting a EA for proposed site</p>
Ministry of the Environment, Conservation and Parks	416-325-4000	<p>Contact Form Available at Following Link:</p> <p>https://www.ontario.ca/feedback/contact-us?id=26985&nid=72714</p>	<p>Close Proximity to Town</p> <p>Request a comprehensive environmental impact assessment (EIA) of the proposed dump site.</p> <p>Advocate for stringent regulations and monitoring protocols for waste disposal.</p> <p>Highlight potential economic impacts, such as decreased property values.</p> <p>Express concerns about health risks, including airborne pollutants.</p> <p>Advocate for the preservation of natural ecosystems and habitats.</p> <p>Call for thorough remediation and restoration plans.</p> <p>Encourage consideration of cumulative effects with other development projects.</p>
Ministry of Natural Resources and Forestry	1-800-667-1940	<p>Contact Form available at the following link:</p> <p>https://www.ontario.ca/feedback/contact-us?id=26930&nid=65620</p>	<p>How will environmental impact assessments be conducted for the proposed site?</p> <p>What measures will be taken to address risks to air and water quality?</p> <p>Can you outline the regulations and monitoring protocols for waste disposal at the site?</p> <p>How will the Ministry ensure transparency and public involvement in the</p>

			<p>decision-making process?</p> <p>What are the anticipated economic impacts, and how will negative effects be mitigated?</p> <p>How will health concerns like pollutants and contamination be addressed?</p> <p>What steps will be taken to preserve nearby ecosystems and habitats?</p> <p>What plans are in place for remediation and restoration if environmental damage occurs?</p> <p>How does the proposed site fit within broader waste management strategies at regional and provincial levels?</p>
Ontario Nature	<p>1-800-440-2366</p> <p>416-444-8419</p>	info@ontarionature.org	<p>How does Ontario Nature assess the environmental impact of waste sites?</p> <p>What strategies does Ontario Nature recommend for air and water quality at waste sites?</p> <p>Can Ontario Nature provide insight into waste management regulations and monitoring?</p> <p>What factors does Ontario Nature consider when evaluating waste sites and advocating alternatives?</p> <p>How does Ontario Nature involve the public in waste site decision-making?</p> <p>What are Ontario Nature's concerns about economic and ecological impacts of waste sites?</p> <p>How does Ontario Nature advocate for health risk mitigation at waste sites?</p> <p>How does Ontario Nature protect ecosystems near waste sites?</p> <p>What role does Ontario Nature play in advocating for remediation and restoration at damaged sites?</p> <p>How does Ontario Nature engage with waste management policies at the provincial level?</p>
