

FNSKU Label Recycler Privacy Policy

Effective Date: October 23, 2025

This Privacy Policy applies to the FNSKU Label Recycler Chrome Extension ("the Extension") provided by Shoal Creek Solutions, LLC.

We take your privacy seriously. This document outlines the Extension's approach to data handling.

1. Data Collection and Storage

The FNSKU Label Recycler Extension is designed as a local, private utility and DOES NOT collect, transmit, or store any personal user information.

Non-Personal Data Storage (Local Only)

The Extension performs the following temporary, local data storage solely for its functionality:

- **FNSKU Image Data:** When a user uploads an Amazon FNSKU PDF, the Extension extracts the FNSKU barcode image and stores it temporarily as a Base64 string in **Chrome's local storage (chrome.storage.local)**. This data is non-personal and is used only to populate the printing grid.
- **Grid Selection State:** The Extension may temporarily store the user's last selected grid configuration locally in Chrome storage to improve usability.

Data Transmission

The Extension does not communicate with any external servers (aside from Google's secure payment system for initial purchase verification). The PDF generation process occurs entirely within your browser.

2. Third-Party Services

The Extension uses local, offline copies of the following open-source libraries to function. These libraries do not transmit data:

- jsPDF (PDF generation)
- pdf.js (PDF parsing)
- Tailwind CSS (Styling)

3. Policy Changes

We reserve the right to modify this privacy policy. Any changes will be posted on this page with an updated effective date.

4. Contact Information
