

## Pioneer Company Networking Golf & Business

Biz On Course Sdn Bhd, a homegrown company, takes up the challenge of creating a platform where B2B business owners from all industries can come together to expand their business reach in the ever-competitive business market, using golf as the medium.

**I**t is a pioneer, annual membership open to Owners, CEOs, and Managers of established B2B business, Corporate Professional Service providers, and MNCs from various industries, that offers structured business golf networking.

Approval of memberships is given only to members who are established in their respective fields and have agreed in advance that this is a business golf platform where members are open to business talks and opportunities immediately.

So the moment you become a registered member, you will be surrounded by premium B2B business networking opportunities from various industries.

Members meet once a month for both business sessions and golf, a minimum of twelve times per year. Besides the monthly business golf meeting sessions, privileged members also enjoy benefits such as merchant discounts when shopping and being able to attend additional networking events jointly organised with other

established industries.

The annual membership fee is inclusive of golf and is more affordable than leasing an annual golf membership and having to pay the monthly maintenance, buggy and caddie fees every time you play.

Networking over golf is nothing new. However, this direct approach creates business opportunities in a straightforward and simple manner as applicants are pre-informed that this is a business networking golf platform first, with social golfing being the second priority.

Members can benefit from pre and post golf structured business systems on the golf course to expand their business reach. Regular participation in the monthly meetings, and leveraging on the more than 100 years of international business networking and business infrastructure experience behind the company, yield opportunities for business growth.

Founder of Biz On Course, Dahniel Poon, has over 30 years professional

Founder of Biz On Course, Dahniel Poon.

and business experience in OA, IT, Telecommunications, Channel Distribution and professional services. His love of business and golf led to the formation of this pioneer company. His plans are to also take this platform to regional countries as well as globally and members can later decide to be part of the regional or global category to access these business golf networks. He envisages that in the next few years members can leverage on probably the best business golf networking platform in the world, and Biz On Course becoming the first platform a foreign investor will visit when exploring businesses in Malaysia.

The best part is, whether you are a seasoned or a new golfer, you can enjoy a continuous stream of new opportunities to grow your company business connections exponentially, both locally and globally.
