#### About us

Mary, Jennie and Louise taught us all we know about great Italian cooking, standing on chairs as kids stirring the sauce, not gravy. Mary took the family passion forward for decades with Mary's Kitchen prepared foods. The little girl on the left is so proud to bring the love and comfort of the family recipes to you once again. We are certified for safe food handling, safe food management and fully insured. Certified American Council on Exercise Food Nutrition Specialist, 2022.

Let us share our food love & comfort with you at your family table.
