Permanent Marker

Los Angeles indie brand Doja Exclusive released the **Permanent Marker** weed strain in June 2022 on both coasts. Bred and grown by Seed Junky Genetics' JBeezy and selected by Doja Pak, the strain fuses several well-established cultivars: [Biscotti](#) x [Jealousy](#) x Sherb Bx. Floral, soapy, candy, and gassy funk smells fully translate into the taste. It has a lingering, pungent flavor of a soapy funk with a hint of candy and floral gas tones. The potent strain brings out creativity for daytime relaxation, followed up by the munchies and the urge to roll up some more
