

- Mal Reynolds in the streets, Captain Janeway in the fleets
- Fluent speaker of technical language, be it legit or babble
- Would never sell you out to the evil Galactic Empire for material gain. Well, not for too low a price, anyway
- A minor in linguistics from the academy helps with perfecting those pesky non-terrestrial languages if the role calls for interplanetary diversity
- Dangerously unafraid of space bugs or suspiciously large and unexplained eggs, she'll pick those babies right up
- Experience with 21st century Terran firearms may transfer to proficiency with plasma, gauss, and antimatter weapons
- Perfect temporal non-interference record
- Can best a stormtrooper. No promises about a Wookie.
- Kicks higher than average for taller-than-average aliens and has 20/20 vision for reading the treaties of the tiny ones
- Insists on surviving through at least 15 minutes or at least 3 kills
- Definitely not a cylon
