General information

Master class at Tunde's Sugar Art Studio

Master classes are teaching a specific skill set in depth. I provide all the tools and supplies needed for the class and participants will go home with a beautiful set of cookies and valuable skill they can use in the future.

Half day master classes are usually 3-4 hours, depending on how fast the participant is working.

One on one private classes can be tailored to the participant's need. Let me know if there is something you would like to learn. If I know how to do it I will include it.

Experience needed for the master classes

All skill levels are welcome at these cookie decorating classes. They are called master classes, because the goal is to master a specific technique or skill set.
