

# Full Home Water Filtration System

## Innovative control technology

Pegasus Water Inc uses electronic technology that determines your family's daily conditioned water usage. The system control automatically calculates how much conditioned water is used day after day. It remembers any change and only regenerates when necessary. This saves up to 50% on potassium and conserves water.

## Features

- Proportional brining
- Auto regeneration based on usage
- Override today selections
- Reserve calculating for optimum efficiency
- Customize program cycles
- 2 hour power backup
- 12 volt transformer with 15 ft cord
- Counter current brining
- Conditioned water for brine refill
- Automatic bypass during regeneration
- Brine tank safety shut off
- 1-in full flow valve
- UL, FDA and/or NSF approved components
- Self-cleaning distributors
- Rust and corrosion free
- Manufacturers warranty
- Quartz under bedding

## Inside the Pegasus Water System

**Carbon Cap** - Granular Activated Carbon removes chlorine, unpleasant tastes and odor.

**High Capacity Cross-Linked Cation Resin** - Higher capacity to remove iron and hardness minerals.

**KDF** - Inhibits bacteria growth and removes heavy metals.

**Garnet** - Provides sediment filtration and promotes even distribution.

Optional Space Saver Potassium Tank

**"Built specifically for treating Florida water"**

One complete system that cleans, softens, filters, removes chlorine, chloramines, chemicals, bacteria and eliminates bad taste and odors.
