Join Us!

OUR MISSION

- We provide NYC youth in underserved communities access to careers in construction, architecture and engineering
- Currently based in Harlem, we are developing a pipeline of high school graduates who are trained in construction administration and are OSHA certified

OUR PROGRAM

Training

6 months of classroom and field training for 2-3 hours per week.

Scope of training includes: construction administration, project management, project management Information system, site visits , OSHA 10 & 30.

Students will be awarded a stipend during the program.

Internships

3 month paid internship with one of our partner firms

Students will have the opportunity to work for industry leaders in the construction business. This experience will set them on a path to obtain good paying jobs.

Students will also be provided with full time job search support and mentorship.
