## Partner with Us!

### OUR MISSION

- Our nonprofit provides NYC high school students in underserved communities access to careers in Architecture, Construction, Engineering, and Development (ACED)
- We promote diversity, and upward mobility for all, in the ACED field
- Our students graduate not only with technical knowledge, but also with transferrable professional skills, and networking experience

### OUR PROGRAM

#### Training

8 months of classroom and field training for up to 4 hours a week

Scope of training includes; OSHA and SST certification, construction methods and material, estimation and bidding, project management, autocad, blueprint reading, information systems, sustainability, insurance, and safety management

#### Internships

Paid summer internships with our partner firms

Students will have the opportunity to work for leaders in the ACED industry and will embark on in-demand careers, regardless of whether they will pursue a college degree. They will also be provided with job search support and mentorship
