OUR MISSION

- Our nonprofit provides NYC high school students in underserved communities access to careers in architecture, construction, engineering, and development (ACED)
- We develop a pipeline of OSHA-certified high school graduates trained in construction administration, ready to join the workforce!

OUR PROGRAM

Training

6 months of classroom and field training for 5-6 hours a week

Scope of construction administration training includes: construction methods and material, project management, estimation and bidding, autocad, blueprint reading, project management Information system, sustainability, and OSHA 30.

Internships

3 month paid internship with one of our partner firms

Students will have the opportunity to work for leaders in the ACED industry and will embark on a career with upward mobility. Students will also be provided with full time job search support and mentorship.
