Office Print Range

Ricoh is improving work life in organisations
using smarter workplace technology to create
positive change.

Empowering
digital
workplaces.

It means helping you to transform the way you work, in a fast changing world, by combining a range of capabilities to deliver great outcomes for your organisation, people and customers.

A brighter tomorrow

As business demands and expectations change, we're moving away from traditional platforms to the next generation of IT and Business Services. We understand the need to adopt new technologies including office automation, cloud-based systems and managed services in order to address our customers' needs. Being part of a global technology brand enables us to deliver everything you want now, and into the future.

imagine. change.

Change is driven by imaginative thinking, and that is the proposition of the Ricoh brand. Imagine and Change are two words to describe the way we work and bring value to our customers' businesses. They express our belief in the creative potential of individuals and organisations, with our emphasis on forward thinking and positive results.

For those who want to transform their business and leverage the collective knowledge and imagination of their people, the solution is as simple as these two words. More than just a tagline, this is the essence of the Ricoh experience.

IT Services

Technology and innovation is critical to your core business, and the strategic requirements of most organisations are changing as fast as the technology landscape itself. That's why our focus is on providing a dynamic, consistent and strategic service for all, or part of your organisational IT functions.

Communication Services

The right communication tools can transform the way you work, increasing productivity in business meetings, teleconferences, collaborative presentations and classroom training sessions. It's our history with precision optics and the lens technology built in to our range of portable projectors, which makes them perfect for business presentations needing a high contrast, bright, crisp image for maximum impact.

Workflow Services

Start a journey of discovering new ways to work that improve the way your business functions. Every organisation has its own unique set of challenges and that's why Ricoh's range of managed workflow solutions are designed to streamline your administration, increase efficiency and maximise your productivity.

- Image Capture
- Storage and Retrieval
- Business Process
- Workflow Solutions
- Customisation
- Enterprise Content Management

Managed Document Services

MDS is a specialist service that defines, then analyses the ways your staff access, use and store information as part of your business process.

We then work with you to adapt and optimise these processes by unlocking and streamlining the flow of information to increase efficiency and productivity, all with reduced risk and cost.

- Process Optimisation
- Process Improvement
- Rationalisation
- Document Management and Workflow
- Business Process Outsourcing
- Governance
