

# ILEARN: Science

Preparing both teachers and students for Biology, Gr 4 & 6

Our goal is to provide every teacher with practical insights to strengthen daily instruction and guidance to prepare all students as we learn together about the new Indiana assessment.

Workshop agenda:

- Examine and deconstruct the new ILEARN Blueprints for grades 4, 6, and Biology.
- Understand the depth of knowledge required for each standard in the blueprint.
- Explore IDOE resources to become comfortable with the new assessment.
- Learn the skills needed for surface, deep, and transfer learning to move students to higher-order thinking skills.
- Understand the implications of a computer adaptive testing approach.

Deena Wickliffe, Linton-Stockton High School science teacher, will be sharing her expertise and real experiences for this session. She has experience on both the IDOE blueprint and item specification committees for the ILearn assessment. Please plan on joining us for a session designed specifically for grades 4 and 6 Science teachers and Biology teachers.

A Professional Growth Certificate worth 6 points will be provided. Participants should bring a laptop to access online resources.

**Thursday**

**December 13, 2018**

**Wilson Education**

**Center**

**2101 Grace Avenue**

**Charlestown, IN 47111**

**Registration: 8:30**

**Workshop: 9:00-3:00**
