

RABBIT CARE LIST

1. Where Will My Bunny Live?
 - a. Inside or Outside?
 - i. Inside: Playpen/Kennel/Cage
 - ii. Outside: Hutch/Fenced Area
 - b. Climate
 - i. If indoor it is easier to make sure bunny is comfortable
 - ii. If outdoor, you will need to ensure bunny is shielded from all weather (Heat/Cold/Wind/Rain/ETC.)
 - c. Litter Box
 - i. Cat Size Open Top For Bunnies (Flemish Will Need Something Larger As They Grow)
 - ii. Pine Shavings (Never CEDAR!)
 - iii. Place a Hay Rack Over The Litter Box In A Corner Of Their Pen For Easier Training
 - iv. Check litter box daily to ensure proper digestion
 - d. Toys
 - i. Baby Toys
 - ii. Natural Wood Toys
 - iii. Tunnels
 - iv. Nothing they can tear up where they may choke on the pieces
 - v. Hiding Houses
 - e. Food and Water
 - i. 16%-18% Protein Pellets (We use Alfalfa Based Pellets)
 - ii. We use Petrus Elite 50/50 Rabbit Pellets
 - iii. Mix in Sunflower Seeds and Oats
 - iv. We Free Feed Pellets and Timothy Hay
 - v. Access to Water at all Times! Make Sure Water Bottle is working properly daily or use a bowl
 - vi. Fruits and Vegetables
 1. Only introduce at or after 4-6 months old
 2. Fruit once a week as they are high in sugar
 3. Dark Leafy Greens For Veggies
 4. Watch for Diarrhea and Dehydration if over fed fruits and veggies this can happen

2. Daily Care

a. Nails

- i. Check nails when playing with bunny
- ii. Nail trimming is not hard if you start early
- iii. Use Dog/Cat nail trimmers or toe nail clippers
- iv. If they get overgrown this can cause feet and toe issues

b. Grooming

i. Brush daily/ Weekly

1. When you first get your bunny, brushing daily will help with the bonding process
2. When brushing always check over your bunny
3. Check ears and teeth make sure they are clean
4. Check feet and tail

c. Play time and Bonding

- i. Spend time bonding with your bunny
- ii. Pet and talk to your bunny

3. Other Great Information

a. Comfrey

- i. We feed Comfrey Leaves Once a Week to each bunny
- ii. Comfrey can be grown and fed fresh or bought dry and fed
- iii. We grow our own and the bunnies enjoy it fresh
- iv. It is great for digestion and many other things
- v. Spend sometime researching Comfrey and its Benefits
- vi. We have been using Comfrey for over 6 years and have not Had Problems with GI Stasis which is Quite Common in Pet Rabbits

b. Annual Shots

- i. Vaccinations are not required for rabbits in the State of Texas
- ii. Please research what is best for your family and you new rabbit
- iii. All our bunnies are indoors and we use natural herbs to prevent disease as well as being closed to the public where diseases may be brought in

c. Deworming

- i. Though our bunnies are housed inside we deworm 2 times a year naturally
- ii. We like for them to have play time in the yard and worms, as well as other pests can be picked up. It is best to air on the side of caution
- iii. Decide what is best for deworming you bunny. They sell pastes and liquids or you can feel free to ask what we use on our rabbits!

***If You Have Additional Questions Please Do Not Hesitate To Ask As Things Come Up! These are just some of the basics/ a guide and there is more information out there if you research or have questions. I always go over care for bunnies at the time of pick up and will refer you to our care list to print for easy access. All

bunnies come with transitional feed and hay when they are going to a new home because they have sensitive digestion. Please feed them what they are used to for 48 hours then start mixing in what you will be feeding the bunny. Do not feed a bunch of carrots and iceberg lettuce! It is not good for their digestion. This includes having them on grass for more than an hour when they are not used to eating it daily it can disrupt their digestion and cause diarrhea, dehydration and possible death.

Please Read the Sales Policy Below:

Please Read The Sales Policy Before Purchases.

All bunnies are priced according to breed, possible color, gender and quality. Rabbits that are wait listed will be sold in order of the list. Any available bunnies will be sold on a first come, first served basis. We are always adding families to the wait list and if you have questions or you would like to be added please let us know! At 4-5 weeks of age we will send pictures of each bunny available in order of the wait list. It will include possible color, gender and price. At that time a deposit of 50% of the total amount will be due via Venmo or Facebook Pay within 24 hours of us contacting you. Remaining balance will be due upon pick up. Deposits are Non-Refundable. We will only hold a maximum of 2 weeks. We do not deliver, sometimes we will meet at a convenient location, we have a lot of families that travel from out of state, sometimes 2 day drives or flights, so please make arrangements accordingly. The Buyer is responsible for inspection of the bunny at the time of pick up. The sale is finalized once the bunny has been paid for in full and/or has been picked up by the buyer. We Guarantee the Rabbit is Healthy at the time of pick up/purchase. Furthermore, we can not control what happens once the bunny has left our care, including but not limited to, disease, death, abuse, neglect, temperatures, improper housing, malnourishment, improper feeding which causes sickness and death. The Buyer is responsible for the rabbits care and well being after pick up. We can not guarantee how a rabbit will place at show. We will give you a description of the rabbit to our best knowledge and experience. We DO NOT offer refunds on rabbits and can not take a bunny back for the health and safety of our Rabbitry. We have the right to refuse any potential family that is considering a purchase of one of our bunnies for any given reason. Please respect our bunnies and our prices. We spend everyday with our bunnies and they are well cared for.

These policies include any animal purchase made at Red Sea Ranch and Rabbitry.
Purchasing from us means you have read and agreed to this Sales Policy.
