

Hello Friends and Clients,

Mindview services, as it is currently, have come to an ending point. I, Umu Benjamin, and Mindview find the decision to end this line of service difficult. Difficult for the impact it may have on our current clients requiring them to have a mindset change to adjust and seek services and care elsewhere.

We at Mindview understand this is never an easy process; for this, we express significant empathy, understanding, and sadness. The future of Mindview will still be present but in a different capacity. While this direction has yet to be ready for disclosure, or public notification, we are hopeful that you will join us on our journey once the time is right.

Until further notification, I, Umu Benjamin, founder and CEO of Mindview, will be found at Limbic. live- a Mindful Wellness Coaching Community that is not a medical community but a community that offers the same services as Mindview without the prescriptive privileges.

What does that mean for you? It means being able to have similar services that approach wellness and health without the use of prescription writing services or lab ordering services. It also means that you will still be required to maintain mental health prescriber services but with the knowledge and empowerment of being able to mobilize your wellness through building a solid foundation of what true wellness is by addressing the root sources.

Please use your insurance company's directory services, psychology today, therapy dan, etc., to locate a new provider. If any client is with medication, 3 months refill will be provided by contacting the office via email at contact@mindviewbh.com within the next 6 weeks. Medical records can be requested via contact@mindviewbh.com. If you have further questions or concerns, please email us via contact@mindviewbh.com.

I appreciate the privilege of being able to support your wellness journey, and I hope you will continue with great success in health. Until then, I'd like you to find me at Limbic. Live community for your natural wellness needs.

With Great Appreciation,

Umu Benjamin
