

PERFECTLY CLEAN - FOR SURE

PRODUCT PORTFOLIO

FOR PROFESSIONAL CLEANING SOLUTIONS

PERFECTLY CLEAN - FOR SURE

From research and development through production, distribution, customer training and service, the company offers its customer an "all-round, carefree package" for cleaning application. This way, Buzil is always up to date with market trends. The focus is always on environmental impact, cost effectiveness and product quality.

Research & Development as a basis for success

Since 1953, when Franz Wagner expanded the retail business by a production facility, the company has grown into one of the most advanced chemical businesses in Europe. Today more than 10% of the staff is involved in the development of new solution, improvement of existing products, analysis of competitors products and quality assurance.

Innovative solutions for professional building cleaning

Buzil offers its customers a well-balanced range of products, customised solutions and creative ideas. Alongside a basic portfolio there are special systems available for the individual challenge of professional users. Be it the cleaning and care of top quality special flooring or the removal of stubborn dirt on natural stone floors, Buzil's Application Technology Employees provide suitable solutions and advice at all times thanks to their sound expert knowledge. All Application Technology Employees have years of experience in cleaning technology, are specialists for training and seminars and have a passion for their work.

From Germany to the whole World

A strong market position in Germany is the basis for the development of a more international focus, with the company concentrating on the key markets in Europe, subsidiaries in Greece, Poland and a branch in the United Arab Emirates are promoting regional business development in eastern and southern Europe as well as in the Arabian region. Some of our employee support customers and specialist wholesalers in France, Netherlands, Luxembourg and Belgium. And there are experienced Buzil partners working as regional specialist wholesalers in a further 25 countries.

MAKING YOU MORE COMPETITIVE

Rossari Biotech Limited is recognized as a pioneering force in the Indian Industry which offers a large portfolio of chemicals and enzymes besides a vast number of application and technical knowledge. The core philosophy of “**making you more competitive**” is the principle that has always defined us and that guides our emergence as a World Enterprise, dedicated to the betterment of everyone around us.

Vision

- Provides high quality products to the industry, backed with strong R & D
- Cost effective products, to make you competitive in the market place
- Total solutions by providing variety of enzymes & speciality chemicals
- Eco-Friendly products that reduce effluent load & minimise impact on the environment
- Design products tailored to customer requirements, since customer is the King

Strength

- Experienced R & D team with state of the art production facility at Silvassa
- Continuous high quality products
- Flexibility in designing products as per customer specification
- Cost effective and eco-friendly products
- Strong penetration with 6 regional offices in the country Strong technical support with 24/7 service
- Association & Membership with leading domestic & global research associations

Technical Support

Rossari provides excellent technical support along with its diverse product range for all applications. Over the years, the company has set up “State of the Art” facilities for development research, improving manufacturing processes, continuous product innovation and provides reliable technical services to its customers. Staffed by highly qualified personnel, whose collective expertise fulfills the diverse customer requirement, Rossari can proudly claim to have one of the best technical support and service teams dedicated to serving the customer's and their individual requirement as well as providing complete solutions.

Sustainability is an integral part of the Buzil Rossari tradition.

For us, sustainability is continually striving to achieve the maximum possible in terms of ecology, economy and social responsibility, acting credibly, honestly and economically in the process.

BRILLIANT SOLUTIONS FOR ANY CHALLENGE.

SURFACE

Some are varnished, some are high gloss, some are matt. Some are made of ceramics or glass, some of leather, metal or sensitive plastics such as acrylic glass and perspex. Like many other things in every day life, surfaces come in many shapes and sizes. They all have unique characteristics and have to withstand specific stresses. This means that choosing the right cleaning product for each type of surface is absolutely essential.

From ready to use, highly concentrated or certified environmentally friendly all-purpose cleaners to glass cleaners, gloss surface cleaners and alcohol based agents to plastic, furniture and leather care.

Buzil Rossari offers the right solution for any requirement. Our concentrated cleaners can be diluted to different extents depending on the level of dirtiness and the field of application. The correct dosage saves money and protects the environment.

Whether it's professional facility cleaning, maintenance or intensive cleaning, cleaning properties or industrial equipment, Buzil Rossari products always deliver a perfect result. Reliable, material compatible, fast and streak free.

Daily routine cleaning

Intensive cleaning

SURFACE CLEANER

Neutral all-purpose cleaner, intense fragrance

pH 7.0

Blitz Citro G 481

Blitz Orange G 482

For all water-resistant surfaces e.g. plastic surfaces, glass surfaces, doors, window frames and heaters; water-resistant floor coverings; water-resistant materials

Product Advantages

- Material-compatible multi-purpose cleaner
- With fresh citrus fragrance
- Dries quickly without streaks

Container

5 L

Dilution: 5 - 10 ml / L water

Ready-to-use furniture and special care

pH 9.5

Buz® Finesse BR 542

Ready-to-use metal polish

pH 9.5

Metapol G 505

For cleaning and care of sensitive surfaces and materials e.g. wood, plastic, stainless steel and metal; suitable for cockpit care

Recommended for surfaces and materials; brass; aluminium; chrome; electrolytically oxidised aluminium; bronze; copper; stainless steel; glass; ceramic; glass ceramic hobs

Product Advantages

- Cleans, cares and preserves in a single step
- Antistatic effect reduces re-soiling
- Refreshes colour

Container

5 L

Product Advantages

- Intensive deep cleaning action
- Material-friendly
- Good skin compatibility
- Protects treated surfaces through beading effect
- Pleasant fragrance

Container

5 L

Undiluted

Undiluted

Ready-to-use glass cleaner

pH 7.0

Profiglass G 522

Interior glass and surfaces; mirrors; frames, plastic and car windows

Product Advantages

- Anti-soiling effect for delayed Re-soiling
- Targeted cleaning possible
- Dries quickly without streaks

Container

5 L

Dilution: 5 - 10 ml / L water

Glass and frames cleaner concentrate

pH 6.5

Buz® Windowmaster G 525

For cleaning large exterior glasses, windows, frames, formica surfaces; glass covers on PV modules

Product Advantages

- Anti-soiling effect for delayed resoiling
- Even, stable microfoam
- Outstanding squeegee sliding behaviour
- Optimum removal of insect marks

Container

5 L

5 - 10 ml / L water

Glass Cleaner (RTU)

pH 6.0

Ross GC

Interior glass and surfaces; mirrors; frames, plastic and car windows

Product Advantages

- Anti-fog properties
- Leaves no streaks
- Dries quickly

Container

5 L

Undiluted

Surface intensive cleaner for leather

pH 8.0

Buz® Leather C 580

All types of leather; applications include furniture, clothing, shoes, accessories; vehicle interiors

Product Advantages

- Universal maintenance
- Thorough deep cleaning
- Intensive care effect
- Softens leather
- Increases durability
- Lightly scented
- Surface
- Value for money as used sparingly

Container

5 L

Multipurpose Cleaner

pH 7.0

Buz® RO Fresh Citral BR 911

Multipurpose Cleaner for all water resistance surfaces

Product Advantages

- Material compatible multi-purpose cleaner
- With fresh citrus fragrance
- Dries quickly without streaks

Container

5 L

Dilution: 20 - 50 ml / L water

Intensive Cleaner

pH 10.0

Aktiv G 433

All water resistant surfaces e.g. doors, windows frames, heaters, plastic surfaces and glass surfaces

Product Advantages

- Outstanding cleaning effect on excessive dirt
- Very economical
- High dispersing properties on oily and greasy dirt

Container

5 L

2 - 5 ml / L water

5 - 10 ml / L water

Tenside free universal cleaner

pH 10.0

O Tens G 500

For moisture resistant and colour fast surfaces; wall and ceiling cleaning; upholstery and textile coverings; stoneware tiles

Product Advantages

- Spontaneous cleaning effect
- No tenside residue
- Significantly reduces re-soiling of stoneware and textile coverings and surfaces
- Colourless and odorless
- Carpet spot cleaning
- Carpet deep cleaning

Container

5L

10 ml / L water

10 - 20 ml / L water

10 - 100 ml / L water

20 - 100 ml / L water

Carpet Shampoo with Pleasant Fragrance

pH 7.0

Optifloor BR 903

Carpet shampoo for basic cleaning of colour fast and water resistance textile coverings from natural hair and synthetic fibre, carpets and upholstered furniture.

Product Advantages

- Spontaneous cleaning effect
- No tenside residue
- Significantly reduces re-soiling of stoneware and textile coverings and surfaces
- Colourless and odorless

Container

5L

100 - 150 ml / L water

60 - 100 ml / L water

60 - 100 ml / L water

Carpet Detergent

pH 7.0

Stainfree CHK BR 169

Carpet shampoo for cleaning textile coverings

Product Advantages

- Spontaneous cleaning effect
- No tenside residue
- Significantly reduces resoiling of stoneware, textile coverings and surfaces
- Colourless and odorless

Container

5L

100 - 200 ml / L water

100 - 200 ml / L water

100 - 150 ml / L water

WE MAKE SURE EVERY SURFACE COMES CLEAN

SANITARY

Lime scale, dirt and soap residue, grease, urine deposits and other common types of soiling. Sanitary areas such as lavatories, bathrooms, changing rooms, showers, washrooms, saunas and swimming pools pose peculiar challenges when it comes to cleaning, as these fittings, like the toilet bowls, taps, counters, etc are usually integrated in the set up. Also, several acid resistant surfaces, as stoneware tiles, ceramics, granite etc., also contain acid sensitive materials such as marble, terrazzo, grouting material or coloured plastic components.

The solutions and their application methods must be perfectly matched to the facility, soiling and water hardness. It can be a challenging task, which our versatile range of maintenance and basic cleaning agents will help you master any sanitary and wet application.

Daily routine cleaning

Basic cleaning

Sanitary daily cleaner with intense fragrance
Amidosulphuric acid based

pH 1.0

Bucasan® Trendy T 464

All acid-resistant materials; for all wet-room and sanitary applications e.g. tiles, washbasins, toilets, sanitary china, chrome and stainless steel surfaces, wall tiles and floor tiles

Product Advantages

- Powerful cleaning action
- Effective removal of lime, dirt and soap deposits
- Immediate streak free shine due to pearling off effect
- Sanitary cleaner based on sulphamic acid
- Leaves a pleasant fragrance
- Especially suitable for chrome and stainless steel
- Hygienically fresh trendy fragrance
- RE and RK listed

200 - 300 ml / L water

Quick cleaning machine cleaner

pH 7.0

Ross FC-H BR 204

Floor cleaner for wet mopping and scrubbing with a machine on all kind of floors for heavy traffic areas

Product Advantages

- Quick cleaning
- Dissolves oily and grease dirt
- Removes stubborn dirt

Container
5 L

5 - 10 ml / L water

100 - 200 ml / L water

Universal basic cleaner

pH 10.5

Corridor® Unic Ultra S 707

Water-resistant and alkali-sensitive floor coverings e.g. linoleum, rubber, PVC and limestone

Product Advantages

- Powerful universal cleaner
- Outstanding film dissolving and dirt dissolving power
- Very good material compatibility
- Short reaction time to save time
- Easy to remove from the surface
- Removes the hardest coatings

Container
5 L

100 - 300 ml / L water

Basic cleaner

pH 14.0

Total G 424

Alkali resistant and water - resistant hard floor covering such as PVC, stone (unpolished), brick slabs and earthenware slabs

Product Advantages

- Outstanding film removing action
- Dissolves stubborn dirt
- For application in cleaning machines
- Foam inhibited

Container
5 L

100 - 300 ml / L water

High performance universal basic cleaner

pH 10.0

Corridor® Power Stripper S 708

Hard-to-remove coating and care films that are metal ion crosslinked and free of metal salt; multi-coated, high speed polished floors e.g. linoleum, rubber and PVC

Product Advantages

- Outstanding dissolving action on encrustations and compressed care films
- Fast acting and residue-free dissolving of coatings
- Low dosage, very economical
- High material compatibility
- Foam inhibited

Container
5 L

100 - 300 ml / L water

Basic cleaner for wooden floors, solvent-based

Parquet Stripper G 400

Unsealed wooden floors and hard-wax-treated covering such as parquet, cork, linoleum, unglazed brick and earthenware slabs

Product Advantages

- Deep pore cleaning
- Spontaneous effect
- Thoroughly dissolves hard wax, Oil and grease

Container
5 L

Undiluted

Liquid floor polish

Buzilin G 320

Unsealed wooden floors; untreated and hard-wax-treated floors e.g. cork, parquet, unglazed brick slabs and earthenware slabs

Product Advantages

- Increases floor resistance
- Cleans and cares
- Polishable
- Suitable for cleaners
- Free from typical solvent odour

Container
5 L

Undiluted

Full care for stone floors

pH 9.0

Roca® Dispers R 200

All absorbent natural and artificial stones

Product Advantages

- Produces a waterproof high gloss film
- Free of metal salt
- Slip retardant
- Multi-purpose, therefore suitable for use with cleaners and as wiping car
- Good filling properties
- Easier routine cleaning after application

Container
5 L

10 - 20 ml / L water

1 : 1 with water

Undiluted

Pore filler and primer

pH 8.0

Corridor® Basic S 720

Open pore and absorbent floor coverings e.g. linoleum, concrete and cement; old and damaged, absorbent floor coverings

Product Advantages

- Preserves value for longer, enhances colours
- Gets deep into pores
- Protects against dirt deposits
- Resistant to alcohol & disinfectant
- Cannot be chemically dissolved

Container
5 L

Undiluted

High performance dispersion

pH 7.0

Corridor® Jewel S 741

Heavy traffic floor coverings e.g. schools, nurseries, train stations, hospitals, care homes and areas when disinfectant is used; all water-resistant coatable (including residual damp) floor coverings; epoxy resin floor coverings

Product Advantages

- Extremely durable
- Excellent coverage and ultimate shine
- Fast to clean surface
- Very good resistance to most hand and surface disinfectants
- Polishable using a high speed machine
- Easily removed with Corridor® Power Stripper S 708

Container
5 L

Undiluted

Intensive cleaner for stoneware tiles, alkaline

pH 12.5

Erol® G 490

Microporous, fine rough and alkaline resistant surfaces, stoneware tiles and safety tiles

Product Advantages

- Spontaneous dirt dissolving power with poredeep cleaning effect
- Excellent wetting properties
- Foam inhibited
- A perfect cleaning performance will be achieved in combination with Erolcid® G 491
- RK listed

Container

5 L

5 - 10 ml / L water

50 - 300 ml / L water

10 - 20 ml / L water

Intensive cleaner for stoneware tiles, acidic

pH 0.5

Erolcid® G 491

Microporous, fine rough, acid resistant surfaces; stoneware tiles and safety tiles

Product Advantages

- Special cleaner, phosphoric acid based
- Spontaneous, powerful removal of limescale deposits, rust and cement residue
- A perfect cleaning performance will be achieved in combination with Erol® G 490

20 - 50 ml / L water

Ready to use spray cleaner and restorer

pH 9.0

Corridor® Spray S 770

Care film restoration for coated and uncoated floor coverings; restoration of walkways e.g. linoleum, rubber, sealed parquet, PVC, natural stone and artificial stone, marble, granite (with shine increasing properties)

Product Advantages

- Good filling properties
- Smooth restoration through high level of care
- Ideal for application with a single disk machine or high-speed machine
- Suitable for targeted cleaning

Container

5 L

Undiluted

high speed

Solvent borne stone impregnating

Roca® Pregno R 100

Impregnation of open-pore and absorbent indoor stone surfaces; also for use on polished and precision-ground stone coverings such as granite, gneis, gabbro, limestone and terrazzo

Product Advantages

- Long lasting stain protection
- Offers protection against aqueous dirt as well as oil and grease
- Makes daily routine cleaning even simpler with the easy-to-clean effect
- Excellent depth of penetration, no change in the appearance of floor
- UV resistant

Container

5 L

Undiluted

High performance industrial cleaner

pH 13.0

Indumaster® Strong IR 45

Industrial applications and workshop areas; alkali-resistant floors and surfaces; fire-damage restoration

Product Advantages

- Outstanding dirt dissolving power
- Dissolves stubborn dirt e.g. heavy soot, oil and grease deposits; Graphite and rubber abrasion
- High dispersing properties

Container
5 L

10 ml / L water

10 - 50 ml / L water

1 : 5 to 1 : 10 with water

Ready to use crystalliser

pH 2.0

Ross Clarino BR 203

Long lasting lustre for marble; Italian marble; Jurassic lime stone and other lime stone based floors

Product Advantages

- Improves floor resistance and Protection
- Enhance optical appearance
- Effectively removes minor scratches and chemical burns
- Less drying time

Container
5 L

Undiluted

Floor daily cleaner, ultra-wetting

pH 9.5

Roca® Wipe R 300

Hard-to-wet floor coverings; elastic, tempered coverings, impregnated natural stone coverings

Product Advantages

- Outstanding dirt dissolving power
- Streak-free cleaning
- Suitable for single wet wiping
- Pleasant fresh fragrance
- Ultra wetting

Container
5 L

5 ml / L water

5 - 10 ml / L water

Ready to use crystalliser

pH 2.0

Ross Marbellous BR 202

Smooth, calciferous floor coverings e.g. Marble, travertine, Jurassic, limestone, terrazzo, Italian marble and other lime stone based floors

Product Advantages

- Removes minor scratches and chemical burns
- Enhances the optical appearance and provides long lasting lustre
- No long drying times required after basic cleaning
- Increases protection and floor resistance

Container
5 kg

10 part powder + 2 parts water

YOU'RE IN SAFE HANDS WITH US WHEN IT COMES TO DISINFECTION TOO

From routine disinfection of surfaces to regulatory decontamination actions, Buzil Rossari offers product which has over 100 years of validated results and know how. The performance of our products is verified by recognized German and international listing such as DVG, VAH, IHO, RKI, FDA, ASTM & EN standards.

Disinfectants - lists and standards frequently encountered in this sector

DVG list:

This is list published by the German Veterinarian Association for use of disinfectants in the food industry that have been tested and proven effective. Test organisms include diverse types of bacteria and the yeast species *Candida albicans*.

VAH list:

This is list from the Association of Applied Hygiene for application in hospitals of hospitalism prophylaxis- tested disinfectants considered to be effective. Test organisms include types of bacteria such as *Proteus mirabilis*, *Pseudomonas aeruginosa*, *Enterococcus hirae*, *Escherichia coli* and *Staphylococcus aureus* as well as the yeast species *Candida albicans*.

EN 1276:

European basic test under laboratory conditions (so-called quantitative suspension test) to determine bactericidal effect of disinfectants. Test organisms include the bacteria species *Staphylococcus aureus*, *Enterococcus faecalis*, *Escherichia coli* and *Pseudomonas aeruginosa*.

EN 1650:

European basic test under laboratory conditions (So-called quantitative suspension test) to determine fungicidal effect of disinfectants. Test organisms include the Schimmelpilz *Aspergillus niger* and the yeast species *Candida albicans*.

EN 13697:

European attempt at determining bactericidal (test organisms: *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Enterococcus hirae* and *Escherichia coli*) or fungicidal (test organisms: *Aspergillus niger* and *Candida albicans*) effect of disinfectants on surfaces in the everyday practice.

ASTME 2180:

American test to determine antimicrobial properties of surfaces. Test organisms are diverse types of bacteria and the yeast species *Candida albicans*.

DISINFECTION

Hand Sanitizer

pH 5.0

Budenat® Hands G 597

Disinfection cum hand sanitization in the event of an epidemic in accordance with LFSG (for illnesses which must be reported); also suitable for routine disinfection according to VAH

Product Advantages

- Problem solver in the event of an epidemic
- RK listed (sphere of action: AB)
- VAH listed
- For daily use

Effectiveness

- Bacteria incl. MRSA, TBC & sporulating organisms, yeasts, enveloping viruses as well as the non-enveloping viruses adeno, noro, polio, polyoma and parvo viruses (virucide)
- Tested to European standards EN13704, EN14348

Dosage / Exposure time

Usage according to EN standards (please see technical data sheets)

Container

1L, 5L

Highly efficient disinfectant cleaner

pH 3.0

Infektocide BR 502

High level disinfectant for critical areas in hospital, pharmaceutical manufacturing etc. Eco-friendly, non-corrosive, non-irritant and bio-degradable. Can be used in fogging, spraying and mopping methods.

Product Advantages

- Cleaning and disinfection in one step
- Low dosage
- Acts quickly
- Even with high bacterial load
- Broad spectrum of activity
- FDA Approved
- For disinfection of critical areas

Effectiveness

- Bacteria incl. MRSA and TBC, yeasts, enveloped viruses (limited antiviral properties)

Dosage / Exposure time

5-10 ml / L water
(Please see technical data sheets)

Container

5L

Ready to use alcoholic rapid disinfectant

pH 8.0

Infektocide Spray BR 503

Rapid spray disinfectant for sensitive medical devices and surfaces in critical areas like OT, ICU, CCU, NICU, Isolation ward, QC lab, Pharmaceutical clean room, etc.

Product Advantages

- Residue-free, thus no coating formed after application
- No wiping down or rinsing off necessary
- Acts quickly
- Ready to use
- Non-scented
- FDA Approved
- For disinfection of critical areas

Effectiveness

- Bacteria incl. MRSA and TBC, yeasts, enveloped viruses (virucide to a limited extent) as well as the non-enveloped viruses noro viruses and rota viruses

Dosage / Exposure time

- Bactericides and levurocidal routine disinfection: Undiluted - 1 min.
- Noroviruses: Undiluted - 1 Min.
(Please see technical data sheets)

Container

5L

Antimicrobial Hand Soap (Neutral)

pH 5.0

Ross Aqua E-AM BR 506

Ideal for use in the food industry in kitchens and health care; for clinics, restaurants for hand washing

Product Advantages

- Ready to use on hand at all times
- Residue-free, thus no coating formed after application
- Gentle on hands
- Acts quickly
- Use before and after starting/ completion of work

Effectiveness

- Cleans and disinfects hands
- For better results please use Budenat Hands after hand washing

Container

5L

Disinfectant cleaner for food preparation areas

pH 12.0

Budenat® Combi G 451

Ideal for use in food preparation areas; for all alkali resistant surfaces and floors

Product Advantages

- Cleaning and disinfection in one step
- Powerful oil and grease dissolving power
- VAH, DVG listed

Effectiveness

- Bacteria incl. MRSA and sporulating organisms, yeasts, fungi, enveloped viruses and non-enveloped viruses (virucide)
- Tested to European standards EN1040, EN1276, EN1650, EN13697, EN13704, EN14476

Dosage / Exposure time

- Bactericides and levurocidal routine disinfection after VAH: 2.0% - 15 min.
- Noroviruses: 4.0 % - 30 min.
- Dosing according to EN standards, please see technical data sheets

Container

5L

Neutral disinfectant for food preparation areas

pH 8.0

Budenat® LM BR 501

Ideal for use in kitchens, food preparation areas, care and nursing homes, fitness and wellness studios, schools, nursery schools and health care facilities; for all wet areas, sanitary facilities and for swimming pools as well as for sunbeds and fitness equipment; for all water-resistant materials, surfaces and floors

Product Advantages

- pH neutral
- Aldehyde free
- Particularly suitable for use on acrylic glass
- VAH, DVG & IHO listed

Effectiveness

- Bacteria incl. MRSA, yeasts, enveloped viruses (virucide to a limited extent) as well as the non enveloped strains of Norovirus & Rotavirus
- Tested to European standards EN1040, EN1276, EN1650, EN13624, EN13697, EN14476

Dosage / Exposure time

- Bactericides and levurocidal routine disinfection: 2.0% - 15 min.
- Bactericides and levurocidal rapid disinfection: 7.5% - 1 min.
- Norovirus: 6.0 % - 30 min.
- Dosing according to EN standards, please see technical data sheets

Container

5L

Germicide Cleaner

pH 12.0

ROSA PRE - HS BR 172

Ideal for use in food preparation areas; for all alkali resistant surfaces and floors

Product Advantages

- Cleaning and disinfection in one step
- Powerful oil and grease dissolving power
- For disinfection of critical areas

Dosage / Exposure time

- 1.0% : 10 ml / L water 60 mins Contact time
- 2.0% : 20 ml / L water 30 mins Contact time

Container

5L

Fruits and Vegetable sanitizer

Ross Tab BR 504

A concentrated tablet for disinfection of all surfaces including food contact surfaces and also suitable for disinfection of vegetables

Product Advantages

- Suitable for disinfecting fruits and vegetables received from vendors
- One tablet gives 50 ppm of available chlorine in 15 liters of water
- Highly effective in removing bacteria and other pathogens

Container

50 tablets in 1 Box

Application :

- Vegetables : 50 ppm (Contact Time 1-5 min)
- Equipments : 100-150 ppm (Contact Time atleast 15 min)
- Dusters : 100-150 ppm (Contact Time atleast 15 min)

SENSITIVE ENVIRONMENT. SAFE SOLUTIONS.

KITCHEN

Kitchens and food facilities are among the biggest challenges for providers of professional cleaning solutions. After all, these areas are used to process as well as store food. Whether it's interim cleaning, end of day cleaning, basic cleaning or disinfection meeting the stringent hygiene standards that apply to this sector will probably require special cleaning agents.

Other challenges that make achieving a satisfactory result that little bit harder include high temperatures, excessive moisture & stubborn stains such as oil and grease, burnt food residue, dried egg white or residue from grilling, baking & frying. In addition, the cleaning agents used have to be suitable for the materials in question, whether it's plastic, glass, anti-skid surfaces, chrome or stainless steel.

But even when it comes to these sensitive issues, Buzil Rossari always has the right cleaning solution in accordance with HACCP standards from maintenance and intensive cleaners for floors & surfaces to cleaning agents for automatic dishwashers, descaling agents, grillers and oven cleaners, whether ready to use, highly concentrated or certified environmentally friendly.

Daily routine cleaning

Intensive cleaning

Automobile Cleaner - Car Wash

pH 7.0

Ross Sparkle BR 301

Efficient automobile cleaner

Product Advantages

- Providing shining effect
- Providing thorough cleaning
- Effective at removing any type of dirt
- Material friendly
- Produces active foam streaks dries quickly

Container
5 L

2 - 4 ml / L water

Washing-up liquid, neutral

pH 6.0

Buz® Dish Fix G 530

Water-resistant surfaces and materials; dishes; glasses; cutlery

Product Advantages

- Good grease dissolving power
- Highly foaming
- Dries quickly without streaks, without towelling dry
- Material friendly
- Skin friendly
- Clinically tested with a pleasant fragrance

Container
5 L

2 - 4 ml / L water

Kitchen intensive cleaner

pH 13.0

Bistro G 435

Gastronomy; industrial kitchens; food processing industry; alkali-resistant surfaces and floors

Product Advantages

- Outstanding removal of protein, oily and greasy dirt
- Stable foam structure
- Suitable for use in foam guns
- Fast separating according to Standard ÖNORM B 5105
- RK and RE listed

Container
5 L

10 - 20 ml / L water

50 - 100 ml / L water

1 : 5 to 1 : 10 with water

Grill & oven cleaner

pH 14.0

Buz® Grillmaster G 575

Gastronomy; industrial kitchens; alkali-resistant ovens, grills and convection ovens; removes excessive encrusted grease, oil and albumen, as well as residue from grilling, baking and roasting

Product Advantages

- Automatic action with high fat emulsifying capabilities
- Spontaneous dissolving on burnt On dirt
- Fragrance free
- Safe for food industry

Container
5 L

25 - 100 ml / L water

1 : 3 to 1 : 5 with water

Machine ware wash liquid, Detergent

pH 14.0

Ross Dishclean BR 302

For the food industry e.g. in bakeries, butcheries, restaurants and industrial kitchens; especially suited to materials made from aluminium, stainless steel, chain, plastic and glass

Product Advantages

- Suitable for machine cleaning in all commercial dishwashers
- Very good cleaning performance
- Removes grease and starch effectively
- Highly effective for removing protein soil
- High concentrate, therefore low dosage and highly economical

Container

30 L

3 - 6 ml / L water (Soft Water)
6 - 9 ml / L water (Hard Water)

Machine ware wash liquid, Rinse-aid

pH 2.0

Ross Dishfast BR 303

For the food industry, restaurants, hotels industrial kitchens, especially suited to undecorated glasses as well as porcelain, stainless steel, plastic and cutlery. Should be use in conjunction with Ross Dishclean BR 302

Product Advantages

- Suitable for machine cleaning of glasses and dishes in all commercial dishwashers
- Perfectly suited for hard water
- Highly effective for removing dried tea and coffee residues and lipstick on glasses and china
- Glass protecting and material friendly
- High concentrate, therefore low dosage and highly economical

Container

30 L

1 - 3 ml / L water (Soft Water)
3 - 7 ml / L water (Hard Water)

Alkaline intensive cleaner

pH 13.0

Perfekt G 440

Industrial applications e.g. workshop floors, industrial kitchens and gastronomy, food processing industry; solvent sensitive floors

Product Advantages

- Outstanding cleaning effect on oil and greasy dirt
- Foam inhibited
- Suitable for high pressure cleaners
- RK and RE listed

Container
5 L

5 - 20 ml / L water

1 : 5 to 1 : 10 with water

Drain cleaner

pH 14.0

Buz® Flow G 577

Opens up clogged drains, pipes, siphons in washbasins, showers

Product Advantages

- Highly effective, self acting drain and pipe cleaner
- Power breakdown of blockages caused by soap residue, grease, hair and traces of food
- Slightly viscous for enhanced performance

Container
5 L

Undiluted

Kitchen intensive cleaner

pH 13.0

Ross HDC BR 304

Gastronomy; industrial kitchens; food processing industry; alkali resistant surfaces and big cooking utensils with carbon deposits and burnt foods

Product Advantages

- Outstanding removal of protein, oily and greasy dirt
- Cleans carbon deposits
- Removes burnt foods
- Removes tea and coffee stains
- Recommended for use in restaurants and industrial kitchens

Container
5 L

20 - 40 ml / L water

Manual Dish Washing liquid (Highly Concentrated)

pH 6.0

Buz® Sparkle BR 301

Water resistant surfaces and materials; dishes; glasses; cutlery. Multipurpose soap solution

Product Advantages

- Good grease dissolving power
- Low foaming
- Dries quickly without streaks
- Material friendly
- Kind to skin
- With a pleasant lemon fragrance

Container
5 L

5 - 10 ml / L water

Dish Wash Cleaner

pH 7.0

DISH SMART KS 19

Water resistant surfaces and materials; dishes; glasses; cutlery. Multipurpose soap solution

Product Advantages

- Good grease dissolving Performance
- Active foam
- Fast drying
- Material compatible
- Skin friendly
- Pleasant fragrance

Container
5 L

3 - 5 ml / L water

Kitchen Cleaner

pH 13.0

VARIOSMART KS 21

Gastronomy; industrial kitchens; food processing industry; alkali resistant surfaces and floors

Product Advantages

- Outstanding removal of protein, oily and greasy dirt
- Stable foam structure
- Suitable for use in foam guns
- Fast separating according to standard ÖNORM B 5105
- RK and RE listed

Container
5 L

10 - 15 ml / L water

20 ml / L water

Crocery Destainer (Tea & Coffee)

pH 13.0

Rossclean WR-H BR 305

Liquid presoaker formulated for removal of stubborn stains from crockery

Product Advantages

- Safe for crockeries, cups, china and porcelain
- Very good cleaning performance
- Removes grease and starch effectively
- Highly effective for removing protein soil
- High concentrate, therefore low Dosage and highly economical

Container
5 L

50 - 100 ml / L water

SPECIAL REQUIREMENTS? NOT A PROBLEM

Buzil Rossari portfolio comprises more than 115 products, every single one of them is the result of invaluable expertise and decades of experience. This means we can help our customers to meet almost any challenge.

Thanks to our special cleaning agents, Buzil Rossari has been able to make a name for itself as a sought after development partner and well respected problem solver. Problem surfaces? Sensitive materials? We always like a challenge the tougher, the better.

That's why the Buzil Rossari "arsenal" of special cleaning agents comprises a wide range of innovative solutions that have been developed and designed for specific applications from stoneware

tile and carpet cleaners to odour eliminators, air fresheners, stone impregnation and defoaming agents for machines, stain removers and pipe and industrial cleaners to purpose made hand wash lotions. So you have another exciting challenge for us? Please contact us, and we will be happy to discuss your requirements in detail!

SPECIAL

Daily routine cleaning

Intensive cleaning

Basic cleaning

Skin-friendly hand-wash lotion, liquid

pH 6.5

Rinax[®] Soft G 800

Hand washing for a normal level of dirt

Product Advantages

- Skin-friendly and pore-deep cleaning
- Gentle to the skin even if used frequently pH-neutral
- Cleans with mild foam, especially for sensitive skin
- Pleasant fragrance

Container
5 L

Special Hand soap with moisturizer

pH 7.0

Ross Aqua OR BR 802

Hand washing lotion for cleaning normal dirt of hands. Gentle on skin and cleans deeply into pores. Mild on skin, also when frequently used, pH neutral. For fine layer of foam, nurturing properties, especially suited for sensitive skin.

Product Advantages

- Pore-deep, intensive cleaning, neutral on skin
- Mild on the skin, even with frequent use
- Caring
- Viscous handwash cream with synthetic abrasive for pleasant massaging effect
- Specially for sensitive skin
- The pH value conforms to the acid mantle protective barrier of the skin

Container
5 L

Ecological hand-wash lotion

pH 6.5

Planta[®] Lotion P 317

Hand washing for a normal level of dirt

Product Advantages

- Eco-certified
- Skin-friendly and pore-deep cleaning pH-neutral
- Cleans with mild foam
- Economical to use
- Special skin protection components prevent skin from drying out
- Pleasant fragrance

Container
5 L

Ready-to-use odour eliminator

pH 7.5

Buz[®] Fresh BR 569

Sanitary and toilet facilities; smoking rooms; changing rooms; sports and spa areas; hospitals; care homes; gastronomy; eliminates odours quickly e.g. tobacco smoke, musty smell and pet odours

Product Advantages

- Quick and long-lasting odour eliminator and air freshener by patented Malodor technology
- Leaves no stain behind
- Pump spray without propellant

NOW EVEN MORE EFFICIENCY AND SERVICE FOR COMMERCIAL, RETAIL & ON PREMISE LAUNDRIES

LAUNDRY

Buzil Rossari has complete portfolio for commercial, industrial & retail laundries suiting to need of Hotels, Hospitals and on premise laundries. The liquid application permits exact dosing of the products and allows them to develop their tried and trusted cleaning action even at low temperatures.

Our Laundry service package, including planning, installation and support, is available for individual tailor made dosing solutions. In practice, this means that following an inspection of your premises by one of our service expert, we will prepare an individual offer, which is exactly meets your requirements. A qualified technician will assemble, install and set the system to ensure

optimum efficiency. The Buzil Rossari service package is rounded off by a wide range of support services such as the regular maintenance service, a fast breakdown response service.

Highly concentrated liquid detergent

Rosa SOB BR 111

All purpose liquid detergent, highly active ingredients blended with special surfactants & optical brightener, for tough stains. Works at wide temperature range. It has excellent oil emulsifying properties.

Container: 30 kg Canister

Rosa RLD BR 112

Best blend of special surfactants & Optical brightener, all purpose modern laundry liquid detergent to clean stains from all fabrics. It is mainly used in conjunction with alkalinity boosters.

Container: 30 kg Canister

Clean Wash

Economical All In One Detergent blended with boosters & optical brightener for use on all fabrics. Works at wide temperature range. It has excellent oil emulsifying properties and gives brighter look.

Container: 1 L Canister

Destainer (Special Bleaching Agent)

Rosa Hypoclean BR 173

Excellent Chlorine based product for getting best bleaching effects. It works constantly for Decoloration of stains & works as best disinfectant for laundries. Suitable for white fabrics.

Container: 30 kg Canister

Rosa Oxybleach

Multifunctional peracetic acid based oxygen bleach. Excellent bleaching action even at low temperature as low as 45-50°C

Container: 30 kg Canister

Rosa Oxybleach XC BR 174

A concentrated laundry destainer specially formulated use on colored fabrics like cottons & its blends. Improves stain free brighter look.

Container: 30 kg Canister

Highly concentrated powder detergent

Rosa DET BR 120

Specially formulated DETERGENT to take care of light & heavy soils on cottons and blends. Combined with boost, offers a strong system for cleaning heavily stained fabric. Has built in optical brightener.

Container: 30 kg Bag

Rosa DET XL BR 121

Best All In One Detergent, blend of detergent & boosters with optical brightener to give excellent single shot washing effect for laundries. It is designed to take care of light & heavy soils on cottons and its blends.

Container: 30 kg Bag

Rosa DET H BR 122

Economical All In One Detergent blended with boosters & optical brightener for use on all fabrics. Works at wide temperature range. It has excellent oil emulsifying properties and gives brighter look.

Container: 30 kg Bag

Emulsifier

Rosa Premium BR 171

Blend of concentrated emulsifier, designed specially to remove stains of grease, oil etc from soiled linen. Improves wash performance by affecting the soil-fibre interaction & prevents soil re-deposition.

Container: 30 kg Canister

Rosa PRE

Blend of emulsifier designed specially to remove tough stains of oil, grease etc. from linen. To be used effectively in prewash.

Container: 5 kg Canister

Rosa SOL BR 160

A concentrated blend of solvent and surfactant for emulsifying oily soils. To be used effectively in prewash.

Container: 4 kg Canister

pH Booster

Rosa Ultra Boost BR 123

Effective Alkali Booster, used in soaking and pre-wash to assist in cleaning of soils along with detergent. Maintains excellent whiteness on cottons & blends when used at recommended temperature range.

Container: 30 kg Bag

Rosa Ultra Boost H BR 124

Economical Alkali Booster used along with detergent system for removal of soil from various fabrics. Gives excellent results on cottons as well as blends.

Container: 30 kg Bag

Rosa Ultra Build BR 170

Best Liquid Booster for removing heavy soils from various fabrics. Best results achieved when used in synergy with detergent system.

Container: 30 kg Canister

Fabric Softener

Wunderfeel BR 176

Specially formulated superior fabric softener for supple and soft feel, can be used in washer extractors as well as tunnel washers.

Container: 30 kg Canister

Rosa Ultra Soft BR 177

Specially formulated Hydrophilic Perfumed Softener, used in commercial & on premise laundries which produces a supple, soft feel on various fabrics. It does not cause yellowing.

Container: 4 & 30 kg Canister

Rosa Fragsoft

Specially formulated Hydrophilic Perfumed Softener, used in commercial & on premise laundries which produces a supple, soft feel on various fabrics. It does not cause yellowing.

Container: 30 kg Canister

Neutralizer

Rosa Neutra BR 125

A new generation product for neutralisation of hypochlorite and alkali from the fabric

Container: 30 kg Bag

Rosa Ultra Sour BR 175

A special neutraliser for neutralising residual alkalies, chlorine & iron traces. It is applied in last rinse. Avoids yellowing caused due to traces of iron left over on fabrics & produces brighter shades.

Container: 30 kg Canister

Rosa Sour

A laundry sour specially formulated for use in commercial and on premise laundries. This product should be applied in the last rinse to neutralize residual alkali and to reduce traces of active chlorine

Container: 30 kg Canister

Tunnel washer

Rosa DET TW BR 190

All purpose liquid detergent, highly active ingredients blended with special surfactants & optical brightener, for tough stains. Works at wide temperature range. It has excellent oil emulsifying properties.

Container: 30 & 250 kg Canister

Rosa Ultra Build TW BR 191

Liquid booster for tunnel washers, for removing heavy soil from various fabrics. Best results achieved when used in synergy with detergent system.

Container: 30 & 250 kg Canister

Rosa Ultra Soft TW BR 197

A superior fabric softener for supple and soft feel, specially formulated for use in tunnel washers

Container: 30 & 250 kg Canister

Rosa EMUL TW BR 192

A concentrated blend of emulsifier specially to remove stain of oil, grease, etc. for tunnel washers

Container: 30 & 250 kg Canister

Rosa Neutrapur Forte BR 194

A specially formulated neutralizer for tunnel washers to be applied in last rinse

Container: 250 kg Canister

Chelating Agent / Fabric Stiffener

Rosa AS Conc Liquid

A sequestering cum dispersing agent with high binding properties towards hardening agents and heavy metals

Container: 5 kg

Rosa Brite

Excellent dispersing agent with special chelating action on iron, manganese and zinc.

Container: 5 kg

Rosa Stiff DP

Innovative product for getting stiffness on fabrics & garments. It gives stiff finish on cotton & it's blends.

Container: 5 kg

Stain Remover

Stainfree BSR BR 161

Highly effective stain removing agent for Blood stains. It acts on stain, loosens it, Further mechanical action causes the stain to separate from the fabric and subsequent detergent washing results in complete removal.

Container: 500 ml Jar

Stainfree GSR BR 162

Highly effective stain removing agent with excellent wetting and very good emulsifying effect which swells the fabric and loosens the soil. Further mechanical action causes the soil to separate from the garments.

Container: 500 ml Jar

Stainfree INK BR 163

A spotting agent for removing ink stains from fabric. Apply Stainfree INK Liquid to stain after wetting the fabric. Rinse thoroughly with water after stain treatment.

Container: 500 ml Jar

Stain Remover

Stainfree LPK BR 168

A spotting agent for removing Lipstick stains from fabric. Apply Stainfree LPK Liquid to stain after wetting the fabric. Rinse thoroughly with water after stain treatment.

Container: 500 ml Jar

Stainfree RUS BR 165

A spotting agent for removing rust stains from fabric. Apply Stainfree RUS Liquid to stain after wetting the fabric. Rinse thoroughly with water after stain treatment.

Container: 500 ml Jar

Stainfree CST BR 167

A spotting agent for removing curry stains from fabric. Apply Stainfree CST Liquid to stain after wetting the fabric. Rinse thoroughly with water after stain treatment.

Container: 500 ml Jar

PRODUCT DOSING MADE MORE EASIER AND EFFICIENT

Buzil Rossari has a complete range of chemical dispensing system for the commercial ware washing, product dispensing and dilution, laundry and hygiene maintenance in food chains. These equipment help in dosing optimum chemical, ensure safety and provide desired cleaning results.

We have service & application engineers operating on PAN India basis, who are dedicated to bring innovative and technologically advanced dosing solutions for our highly concentrated ranges of cleaning and hygiene products using these dispensing equipment.

EQUIPMENT

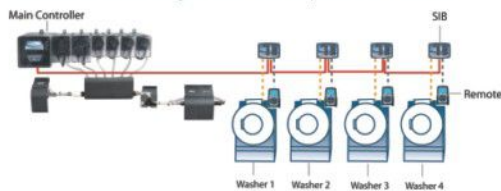

Buz OP Elite (Advanced Laundry Centralised Dosing System) For Multi-washers

BR LND-C01

Installation Schematic Diagram of OP Elite Dispensers for 4 washers:

Product Advantages

- Centralised system and less spaced required
- Auto/Frequent calibration ensure the correct dosing amount
- Auto formula selection makes auto dosing of selected formula and avoid manual error and manual attention
- Data records such load types, chemical consumptions
- Advanced & latest Laundry Technology included

Laundry Dispensers For Stand Alone Washer

BR LND-001

Product Advantages

- Microprocessor based controller make this Laundry dispenser to run full automatic
- Frequent calibration ensure the correct dosing amount
- Advance Flush manifold features
- Data records such load types, chemical consumptions
- Advanced & latest Laundry Technology included

Laundry dispensers for stand alone washer (Special)

BR LND-002

As a supplement to our Laundry product series, we also offer a comprehensive service for dosing systems – from planning through installation to support.

Request a customised quotation – we'll be happy to help!

Smart Dishwasher Dosing System For Conveyor Dishwasher Machine

BR MWW 001

Product Advantages

- Probe / Probe less options for detergent dosing
- Overfeed detergent Alarm
- Chemical Priming facility
- Low chemical Alarm
- Password protected

Dishwasher Dosing Pump for Hood / Rack Type Dishwasher Machine

BR MWW 002

DETERGENT PUMP

RINSE PUMP

Product Advantages

- A Precise dose control make this dispenser most suitable for Hood type of dishwasher machine.
- Robust design
- Easy to maintain

Auto - Drain Cleaning Dosing System

BR DRN 001

Product Advantages

- Timer based auto dosing fixed amount for drain cleaner chemicals
- Customised dosing system specially designed for drain cleaner

Diluit Plus Auto Diluting Dispenser

BR DLT 001

Product Advantages

- For automatic diluting of Housekeeping / Kitchen ranges of chemicals
- Robust designed
- Different dilution ratio allows to use wide ranges of cleaning chemicals

Manual Fixed Dosed Diluting Dispenser

BR DLT 002

Product Advantages

- For dosing fixed amount of chemicals in the kitchen ranges of chemicals
- Robust designed
- Help in maintaining the consumption with quality dosing

Mobile Foam Unit For Cleaning And Sanitising Food Preparation Working Areas

BR FM 001

Product Advantages

- Safe to operator as it only need the compressed air.
- It is mobile unit so it easy to move across working areas.
- Robust in design. No / Less maintenance.
- Easy to operate.

Soap/Disinfection Hand Wash Dispenser

BR HND 001

Product Advantages

- Available in 500 ml and 1 Litre Refill pack
- Suitable for Disinfection Hand wash chemicals.

Accessories

Laundry detergent accessories

H 620	Outlet tap 20 l Laundry
H 630	Outlet tap 10 l Laundry
H 680	Measuring cup

A close-up photograph of a vibrant green leaf with prominent veins, its tip just touching a calm blue water surface. The point of contact has just created a small splash, with a tiny droplet suspended in the air and concentric ripples spreading outwards. The water's surface is a deep, clear blue, and the overall scene conveys a sense of freshness and natural purity.

For us, sustainability is continually striving to achieve the maximum possible in terms of ecology, economy, and social responsibility acting credibly, honestly and economically in the process.
