

What Others Are Saying

We have planned a time for our family to gather and plant a tree in honor of the birth of our son's brand new little sister to commemorate her birth, just like we did when he was born.
-Tom & Sharon, Madison

After my grandma passed away, the helpful people at the nursery asked what most reminded me of my grandmother. She would stand at her kitchen window for hours watching the birds in her flowering crab tree. I knew that the perfect choice as a memorial would be to have the same tree outside my kitchen window. I think of her all year long as the birds enjoy her special tree.
-Karen, Readstown

Other Legacy Ideas

A Unique Opportunity to Celebrate Life

Tree planting is a wonderful way to leave a lasting legacy. As family members watch the tree grow and thrive, they will be reminded of the life it honors. Planting a Legacy Tree teaches our youth how to care for life in the present and future while honoring the past.

Many people choose to have their Legacy Tree planted at their home, while others need another option. Second Nature at Reads Creek has partnered with Norskedalen, a nature preserve in Coon Valley, Wisconsin to provide a place for you to plant a Legacy Tree if you so desire. This will allow hundreds of people each year to enjoy all the gifts this new planting will bring to the preserve.

Let the team at Second Nature at Reads Creek help you carefully select the tree that will work best for your soil type and light conditions so it will thrive for decades to come. Call today and talk with our landscape specialists who will use their years of experience to help you make a choice that is best for your family.

How We Can Help

At Second Nature at Reads Creek, we understand the profound significance of memorial trees and are dedicated to helping individuals find the perfect tree to honor their loved ones or commemorate important milestones.

During this difficult time, we can help in many ways.

- * Tree Delivery
- * Tree Planting
- * Personalized Memorial Tags
- * Gift Certificates
- * Assistance with Tree Selection
- * Memorial Garden Design Services

People often choose a tree to match the personality of the loved one, or a tree that flowers or has special color at a certain time of year. Our team of professionals can help you find the best option to match the personality, soil conditions, sun requirements, and size of the space.
