

Our MISSION

At Second Nature at Reads Creek, we are dedicated to creating an outstanding destination nursery experience, giving back to our community, and lifting up other small businesses.

Part of that mission involves offering local small businesses the opportunity to sell their goods once a month at the nursery from 3-7 pm. After you review this Market Vendor Guide, please let us know if you have any questions!

The Second Nature at Reads Creek Experience

Set in the heart of the Driftless Area, this beautiful nursery is about so much more than plants. Tucked along a Class A trout stream amid the deep valleys in southern Vernon County, this small, family-owned business prides itself in sharing the beauty of this property with the whole community. Watch the eagle nest from a spotting scope on the deck. Feed the koi fish in the pond. Take a walk along the creek, or bring a pole and try your hand at trout fishing. Find handmade items in the gift shop.

Get expert plant advice from landscaping professionals and seasoned gardeners. Sit on the porch and sip a glass of wine, or bring your own picnic lunch. Participate in an educational event. Find mature, hardy trees for your landscaping projects. Take a stroll through the arbor and give your senses a treat with all of the colors and aromas that wrap around you. Enhance your yard with a huge selection of unique perennials, and don't forget the hanging flower baskets!
