

THE MONTHLY
Splash

LAKE CREEK
POOLS

May is here—and that means pool season is in full swing! This month, we're focused on preventive maintenance to keep your pool clean, clear, and ready for fun all summer long.

REDEFINING
OUTDOOR LIVING

*Pool & Backyard Ideas
for Summer!*

NEW TILE & RESURFACING
Refresh your pool with modern tiles and smooth, durable surfaces.

POOL LIGHTING
Set the mood and extend your evenings with vibrant LED lighting.

UPDATED POOL DECK
Upgrade to stylish pavers, stamped concrete, or natural stone.

ENERGY-EFFICIENT EQUIPMENT
Save on energy bills with new, efficient pumps and smart technology.

WATER FEATURES & MORE!
Make a statement with custom features like spas, fountains, and sheer descents.

READY TO TRANSFORM YOUR POOL?
Contact us today to explore your remodel options!

COMPLETE WATER CHEMISTRY CHECK

As temperatures rise and pool usage increases, your water chemistry needs extra attention. We're checking chlorine, pH, alkalinity, and more to prevent algae growth and keep your water safe and balanced.

FILTRATION SYSTEM INSPECTION

We inspect your filtration system and ensure filter cleanings are done as needed. Spring pollen, blossoms, and windy days can lead to extra debris—staying ahead helps keep your system running efficiently.

WATER LEVEL ADJUSTMENTS

Heavy rain or evaporation? Either way, we make sure your water level is just right for proper circulation and skimming.

EQUIPMENT CHECKS

From pumps to heaters to timers, we inspect all major equipment to catch small issues early—helping prevent mid-season breakdowns.

You Can Help, Too!

Communication is Key

The sooner we know about an issue, the easier (and less expensive) it is to fix.

Watch for Cloudy Water

Let us know if your water looks cloudy or if algae begins to appear between visits.

Keep Filters Clean

Schedule filter cleanings as recommended. We're happy to help - just give us a call!

Questions?

We're always here to help you get the most out of your pool. Reach out anytime!
