June 2026

BEAT THE HEAT

LAKE CREEK POOLS

With the summer heat rising, now is the perfect time to ensure your pool stays refreshing all season long!

We're offering a **special on POOL CHILLERS** – perfect for maintaining a comfortable water temperature, even during the hottest days.

How does it work?

Our TropiCool chillers use a refrigerant system to extract heat from your pool water. The water circulates through a heat exchanger, where the refrigerant absorbs the heat before releasing it outside—cooling your pool consistently and efficiently.

Unlike evaporative cooling systems, these chillers are ideal for **humid climates** and deliver reliable performance all summer.

Contact us today to schedule your installation and enjoy a cooler pool tomorrow!

Pricing is currently **\$5500** and includes the concrete pad and breaker installation.

GET \$25 CREDIT FOR EVERY REFERRAL

Refer a friend and when they sign up for a service, they get \$25 off their first pool cleaning and you get \$25 in credit toward future services. Talk about a win-win. Want more? Refer another friend, and that's another \$25. You can refer up to 20 friends a year, which could give you \$500 in account credits!
