LAKE CREEK  
POOLS

## New designs for older pools

If your pool is showing its age, it might be time for an upgrade, whether that's new coping, tile, and plaster or a full transformation with a tanning ledge, deck and water feature.

Our renovation consultant will meet you onsite to discuss your ideas and help plan your dream renovation.

Check out our Facebook page to see our recent transformations, and reach out today to schedule your pool upgrade!

## Happy Holidays!

### Top 6 ways to upgrade your pool

#### LED Lighting

Energy-efficient, long-lasting, and fully customizable. These can be controlled through a stand-alone module or through your an app on your phone.

#### Water Features

We can add a rock waterfall or sheer descent feature. These provide a nice visual feature and also provide soothing sounds.

#### Tanning Ledge

This is our most popular upgrade feature. We build them to fit a lounge, and we include a bubbler and umbrella sleeve.

#### Table and Stools

This provides a great way to socialize and enjoy your drinks and stay in the pool.

#### Raising Spas

If your spa is way too shallow, we can raise the walls to make it deeper.

#### Raising Pools

Don't need that deep end? We can make your entire pool a play pool.

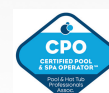

*Wishing you and your loved ones warmth,  
togetherness, and joy this holiday season!*
