Seasonal Pool Filter Cleaning Tips

💡 Why Seasonal Filter Cleaning Is a Must:

Keeping your pool beautiful and safe starts with your filtration system. Just like your car needs oil changes, your pool filter needs seasonal care to do its job right, keeping your water clean, equipment running efficiently, and costs low.

Pool owners should schedule filter cleanings:

- Once in Spring (April-May)
- Once in Fall (October-November)

If your pool sees heavy use or operates year-round, you may need monthly or quarterly cleanings. (Don't worry—our technicians monitor your system and will recommend the best schedule for you.)

💧 What Happens When You Don't Clean Your Filters?

Neglected filters lead to:

- Cloudy or dirty water 🌫️
- Algae growth and chemical imbalance
- Higher energy bills 💰
- Increased wear on your pump and equipment
- Shorter lifespan for your system

Want sparkling, healthy water every time you swim? A clean filter is key.

✅ We have you on the schedule

Part of the benefit of being a Lake Creek Pool customer is no hassle scheduling. Our system automatically schedules your filter cleans on regular intervals.

🔧 Pro Tip from the Field:

"A rising pressure gauge on your filter is one of the first signs it needs cleaning. When in doubt, call us—we'll check it for you."

Thanks for being a part of the Lake Creek Pool family!

Fall Special

Heater check-up for just \$89
Cost applied toward completion of any heater repair.

Regular maintenance helps your heater run efficiently, prevents costly breakdowns, and extends its lifespan.

We perform a full 8-point inspection to ensure your system is running safely and efficiently all season long.

Contact us today to schedule!

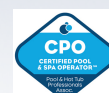

Don't Let Falling Leaves Scare Your Pool!

We recommend checking and emptying skimmer baskets and pool vacuums more frequently during the fall months, in addition to your regular cleaning. A buildup of leaves can block circulation, strain your equipment, and impact water quality. Keep things flowing smoothly and enjoy a clean, clear pool all season long!
