

WINDSOR-ESSEX HOME BUILDERS' ASSOCIATION

CODE OF ETHICS

As a member of the Windsor Essex Home Builders' Association (WEHBA),

We believe our greatest assets are our people.

We believe that if we are great employers, we attract and retain the best employees.

We believe our people should go home – every day unharmed.

We believe that PROFIT is not a dirty word.

We believe that our trades and suppliers are entitled to fair profit and prompt payment.

We believe our word is our bond.

We believe we are an integral part in planning good communities and protecting the environment.

We believe in diversity & inclusion.

We believe there is strength in numbers, and we are smarter together than as individuals.

We believe we are an example against the stereotypical definition of a contractor.

We believe that a formal code of ethics is a good thing and must be adhered to.
