

how do you protect against the elements?

HARGETT
MATERIALS
INCORPORATED

WEATHER SEAL is the *Innovative Solution*

- ⇒ Penetrates surface to protect and seal materials both porous and non-porous
- ⇒ Creates a regulation safe clear, non-glossy finish
- ⇒ Permanently prevents water damage and enables easier clean-up
- ⇒ Does not affect surface color or texture
- ⇒ Stops pitting, rusting, and dust & mold from forming on surface
- ⇒ Non-flammable, non-toxic, odorless and safe to use

COMPARE RESULTS: Treated
vs. Un-treated Stone

AFTER:
Weather Seal prevents water from soaking into the slab. Note: this water bead has remained 20 minutes a top this "dampened" stone. It may be broomed off, or will evaporate after 30 minutes.
