

F.O.G. (Ready to Use)

F.O.G. is an effective heavy-duty multi-purpose concentrate cleaner that utilizes naturally occurring microbes to degrade grease, fats, oils, starches and proteins, converting them to harmless components.

APPLICATION INSTRUCTIONS:

F.O.G. is a ready to use product. Shake well prior to use. Wear protective gloves and eve protection. Avoid breathing dust/mists.

For floors and surfaces, spray or pour F.O.G. onto the contaminated area. Scrub with a brush until area is covered and keep it moist with water - do not let the area dry out.

Wait 15-30 minutes before rinsing the residue away with clean water. Heavily contaminated areas may need to let stand for 1 to 2 hours. Contact manufacturer for information on how to keep grease traps clean with F.O.G.

F.O.G. is also used to clean up bio-hazards such as blood, urine, vomit, and feces. Sanitizing after clean-up will still be necessary

May be harmful if swallowed. May cause an allergic skin reaction. May cause eye irritation. May cause respiratory irritation.

Avoid breathing mist, vapors, or spray. Wash hands and face thoroughly after handling. Use only outdoors or in a well ventilated area. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves/protective clothing/eve protection/face protection.

IF ON SKIN: Gently wash with plenty of soap and water. IF SKIN irritation or rash occurs: Get medical advice / attention. Wash contaminated clothing before reuse. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing. IF eve irritation persists: Get medical advice/attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you feel unwell.

ENVIRONMENTAL SAFETY: This product is not expected to be dangerous to the environment with respect to mobility, persistency and biodegradability, bio-accumulative potential, aquatic toxicity, and other data related to eco-toxicity. Store in cool, dry well ventilated area. DO NOT freeze or store above 120°F. Dispose of contents in accordance with all applicable local, regional and national regulations. For further safety information, please refer to the Safety Data Sheet.
