

how do you clean your equipment?

HARGGETT
MATERIALS
INCORPORATED

F.O.G. is the *Innovative Solution* for Grease Trap & Drain Maintenance

- ⇒ A multi-strain liquid bacterial solution specifically formulated to degrade Fat, Oil, and Grease in drain lines, grease traps, and grease interceptors.
- ⇒ Promotes separation of water from fat, oil, and grease increasing efficacy of grease traps.
- ⇒ Reduces odors within hours of application.
- ⇒ Eco-friendly formulation is readily biodegradable.
- ⇒ Easy and effective answer to the needs of restaurants, hospitals, schools, and other institutions prohibited from directly discharging grease into the city sewer system.

BEFORE: Dirty Grease Trap

AFTER: Clean Grease Trap

F.O.G's application specific bacterial package was selected for its accelerated degradation capabilities of organic compounds.
