General Notes:

1. We had another great show! The audience loved #24 "What I Did For Love."
2. We had to hold house for 17 minutes before the show because of a lighting issue. Please see Lighting Note #1 for more information.

Scenic:

1. The pulling of the legs in #26 Bows went great today!

Props:

1. None today, thank you!

Costumes:

1. None today, thank you!

Lighting:

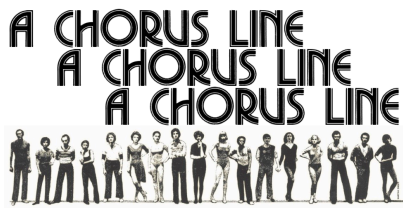

1. One of Channel 2's twofers didn't turn on before house opened. Ash and Weston fixed it.
2. Before the show started, an audience member unplugged Zach (Matthew H.)'s special in the house. We did not notice until after the performance ended. Ash plugged it back in and has ensured it is working. Before the evening performance, Stage Management will check in with Front of House so that it does not happen again.
3. LX 362 was fired late because of a board op error. Annika will check in with Myles when he returns.
4. LX 384 was fired early because of a board op error. Annika will check in with Myles when he returns.
5. Myles was not feeling well after today's matinee. Annika sent him home, and Ash will be stepping in as board op for the evening performance.

Sound:

1. Can there be more Piano 1 in the bass and conductor monitors, please?
2. Josh M. (Mike)'s mic wire was fraying. Kyler tried to fix it, but could not. Kyler will be switching out his mic pack before the evening performance.

Miscellaneous:

1. There was a lot of trash in the house before the performance today. Is someone able to sweep the house before the performances, or is that something Stage Management should add to the preshow checklist?
