Lodging Reservations

Call early for the best rooms and mention that you are attending this conference. Lodging discounts expire on 10/10/23.

Reservations: 406-333-4933

Course Objectives

Vision and Progress in Precision Psychiatry: An Illustration through Cognitive Biotypes and Case Studies

1. Describe the principles of precision psychiatry
2. Define at least one human brain circuit implicated in depression
3. Discuss how individual circuit measures map on to symptoms

Precision Therapeutics: From Circuit Biotypes to Personalized Interventions

1. Summarize how individual circuit measures can be used to predict pharmacotherapy outcomes, with case examples
2. Explain how individual circuit measures can be used to predict behavioral therapy outcomes, with case examples
3. Express how individual circuit measures can be used to understand who responds to exploratory therapeutics and why, with case examples

Reproductive Mental Health Across the Lifespan

1. List the important interactions between contraception and psychotropic medication.
2. Incorporate assessment of premenstrual mood symptoms into routine evaluation.
3. Articulate special considerations when managing the perimenopause population.

The Perinatal Period and Psychiatry: An Overview of What, When, and How

1. Describe the “PATH Questions” and how to incorporate them into mental health care.
2. Explain the five domains of perinatal psychopharmacology and apply them to major categories of psychotropics.
3. Articulate principles for psychiatric management during lactation.

Today’s “Genderation” of Youth: Ethical Debates & Care Considerations Across Childhood and Adolescence

1. Explain the trends and ethical debates in the field regarding youth across development presenting with gender related care needs.
2. Describe the treatment interventions, and the evidence to support them, used for minors with gender dysphoria.
3. Summarize the approach to youth presenting with gender dysphoria and complex psychiatric presentations

Today’s “Genderation” of Youth: Incorporating the Int’l Standards of Care into Clinical Practice

1. Explain the history of the development of international standards of care for transgender and gender diverse people and the relevance for modern clinical practice.
2. Describe the latest standard of care recommendations when approaching gender diverse and transgender adolescents and their families.
3. Apply knowledge of the current ethical dilemmas that exist with respect to decision-making for children and adolescents presenting with gender-related needs in clinical practice.

Montana Psychiatry Conference

Chico Hot Springs Resort
and via Live Webinar
November 11, 2023

Insightful Thinking. Real World Instruction.

The Montana Psychiatry Conference offers fellowship, recreation, and education to Montana’s psychiatric community in a beautiful, legendary location.

It is our hope that you will have meaningful opportunities to connect with others, relax and recharge your batteries and add valuable information to your knowledge base as we all work together to provide exceptional care to our communities.

Out of respect for those who cannot attend in person, we are offering a live webinar option, which includes live viewing privilege, joining in the Q & A sessions and CME credit.

Chico Hot Springs Area Information

Weather conditions in Paradise Valley and Yellowstone National Park can change rapidly. Plan accordingly both in reference to clothing and driving plans.

Several activities (spa, swimming, hiking) and excellent dining options are available at Chico and the surrounding area. If you plan to dine at the Chico Restaurant, make your reservations well in advance.

Accreditation

In support of improving patient care, this activity has been planned and implemented by American Psychiatric Association (APA) and The Montana Psychiatric Association (MPA). APA is jointly accredited by the American Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

The APA designates this live activity for a maximum of 6 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Conference Schedule

Chico Convention Center

7:00 AM: Registration table opens, breakfast buffet

7:30 AM: Sign in for live webinar attendees

8:00 AM: Welcoming remarks by Dr Len Lantz

8:30 AM: *Vision and Progress in Precision Psychiatry: An Illustration through Cognitive Biotypes and Case Studies* by Dr Leanne Williams

9:30 AM: Break

9:45 AM: *Precision Therapeutics: From Circuit Biotypes to Personalized Interventions* by Dr Leanne Williams

10:45 AM: Break

11:00 AM: *Reproductive Mental Health Across the Lifespan* by Dr Emily Dossett

12:00 PM: Catered Lunch

1:00 PM: *The Perinatal Period & Psychiatry: An Overview of What, When, & How* by Dr Emily Dossett

2:00 PM: Break

2:15 PM: *Today’s “Genderation” of Youth: Ethical Debates & Care Considerations Across Childhood and Adolescence* by Dr Scott Leibowitz

3:15 PM: Break

3:30 PM: *Today’s “Genderation” of Youth: Incorporating the International Standards of Care into Clinical Practice* by Dr Scott Leibowitz

4:30 PM: Conference wrap-up
Post-conference reception

2023 Montana Psychiatry Conference Speakers

Dr. Leanne Williams is the Vincent V.C. Woo Professor of Psychiatry and Behavioral Sciences at Stanford and Director of the Stanford Center for Precision Mental Health and Wellness. Using neuroimaging and clinical measures, she has identified neuroscience-based biotypes of depression and anxiety. She has developed the first-of-its-kind testing platform to measure these biotypes in practice. The biotypes help personalize treatment selection, among medications, behavioral interventions, neuromodulation, novel and exploratory therapeutics. She wrote the first book on Precision Psychiatry, published by APA, and contributed over 370 scientific papers to the field.

Emily C. Dossett, MD, MTS, is a reproductive psychiatrist and the founder and director of the Reproductive Mental Health Program at the Los Angeles County + University of Southern California Medical Center. Dr. Dossett is Associate Clinical Professor in the Departments of Psychiatry and of Obstetrics-Gynecology at USC’s Keck School of Medicine, where she teaches medical students, residents, and fellows about reproductive mental health. She has served Los Angeles County as the first Associate Medical Director of Women’s Health and Reproductive Psychiatry for the Department of Mental Health, as well as the psychiatric lead for the MAMAs Neighborhood Program. Dr. Dossett has extensive clinical and policy expertise in integrating perinatal mental health care into prenatal and pediatric settings.

Dr. Scott Leibowitz is a child & adolescent psychiatrist, Medical Director of Behavioral Health Services for the THRIVE Gender Development Program at Nationwide Children’s Hospital in Columbus, OH, and Associate Clinical Professor of Psychiatry at the Ohio State University College of Medicine. He completed his fellowship training at Boston Children’s Hospital and Harvard Medical School, where he first began working with transgender youth at the hospital’s multidisciplinary Gender Management Service in 2008. He is the co-lead for the Adolescent chapter for the World Professional Association of Transgender Health’s (WPATH) Standard of Care 8th version and was elected to WPATH’s Board of Directors in 2022. He is the curriculum co-chair for the WPATH Global Education Institute, where he has led trainings both nationally and internationally including in Israel, Japan, and Vietnam.
