LIGHTING REGULATIONS

The purpose of this article is to reduce the impacts of artificial coastal lighting on threatened and endangered sea turtles that nest on the beaches of Key Biscayne by restricting artificial lighting and other activities that disorient turtle hatchlings, causing them to crawl toward land rather than toward the ocean. This article is intended to provide overall improvements in nesting habitat degraded by light pollution and increase successful nesting activity and production of hatchlings. The restrictions and constraints of this article shall be effective within the incorporated areas of Key Biscayne and apply to any artificial lighting that has potential to adversely impact sea turtles within Village limits.

Nesting season means the period from April 1 through October 31 of each year.

No lights at Nighttime means the time period between 10:00 pm and 5:00 am within the Village limits of Key Biscayne.
