MEMBERSHIP VETERAN STORIES

Post membership and/or all military veterans can share stories about the war (*all wartimes*) during their veteran services, community services to help veteran families, etc. and many THANKS to veterans for sharing.

The newsletter veteran story this month is about our honorary military services comrade Spec 5 Andy Williams who served in the U.S. Army during the Vietnam War. He served as an Infantry Communications Specialist during his military services. He worked closely with his comrades on the battlefield during combat and sending messages to target enemies on the attack. He repaired radars and send messages from the battlefield at the same time to assist his infantry comrades when necessary. Including signal and tech support for his comrades on the battlefield and maintaining communications equipment for combat readiness. He worked closely with his comrades to detect enemy signals and sending messages to disrupt transmitting networks on the battlefield.

His military experience helped him for his future and learning how to face situations with resolutions, and he feels the same thing in life. He had a hard way to start in the military and was able to learn ways to handle tough situations and is proud of serving in the Army. He also met a lot of different people in the military and made many friends, and is staying in contact with them during chatting times. He helps veterans and their families in communities when necessary, and would serve his country if he has to serve again.
