

Paul Jones captained the very first American warship, the Alfred, flying the Grand Union Flag. After attacking Nassau he was appointed over the Providence in May and he joined the official Continental Navy, destroying British fisheries in Nova Scotia and capturing 16 British prize ships, including the British ~~whaler~~ whaler Britannia. Several heavy warships fell to the famous John Paul Jones. (6) The nations of Europe were in awe of the news passing over the Atlantic from North America. George Washington literally stalemated the most powerful army in the modern world with a unprofessional army who lacked necessary winter gear, clothes, were always short of food and ammunition and were held together more by a strong belief rather than a pressing need. H.G. Wells wrote, "The growth of the United States is a progress that has no precedent in the world's history; it is a new kind of occurrence. Such a community could not have come into existence before...this great community of the United States is an altogether new thing in history. There have been great empires before with populations exceeding 100,000,000, but these were associations of divergent peoples; there has never been one single people on this scale before..." (7) By the year's end the Continental Congress had commissioned 13,000 privateers, many formerly pirates, to harass and attack all British shipping. With these 175 ships and about 2000 cannons the privateers succeeded in sinking or capturing 559 English vessels, the confiscated goods sent to George Washington's army. (8)

There are two fundamental characteristics about the people who founded the United States: they were Anglo-Saxons, or more properly described, they were Anglo-Celtic. (9) These were a people of Germanic, Celtic and Gaulic stock, and they were a people unified in their faith, a belief in a future resurrection, in a Savior, in divine redemption obtainable through belief and a modification of personal behavior. This Christianity that led to the founding of the United States was in fact the very revival of ancient Israelite faith. Europe was peopled by waves of migrations from the Baltic and Mediterranean that are shown clearly in Chronicon I to have all come from Samaria, the capitol of ancient Israel in Lower ~~Syria~~ Syria, which was also the origin of Christianity, in Galilee. In the 7th and 6th centuries BC these Israelite migrants were known to the other nations of the Near East and Aegean by their city of origin, Samaria, for they were universally known as Cimmerians. The culture that founded the United States was a spiritual people, the Bible being found in nearly every cottage and house in the 13 colonies. (10) Throughout the colonies Benjamin Franklin's "13 Virtues" were widely popularized and aspired to by the youth of the new nation. (11) It was the dream of Thomas Jefferson and other founders of the nation to establish an Anglo-Saxon Renaissance. It was these men who discovered that the long history of Anglo-Saxon common law was remarkably similar to those of the ancient Israelites. The original Seal of the United States was to depict on one side the Israelites following God's pillar of fire out of Egypt and on the obverse were to be depicted the Anglo-Saxon leaders Hengist and Horsa. These men were Thomas Jefferson, John Adams and Benjamin Franklin. (12) The American Revolution was in all respects also a Christian revolution. (13)

The timing of the start of the United States links it with ancient Israel's start of migration. Israel was predicted to depart from the land and travel across the earth. In the Old Testament we find that Israel would be "A nation and a company of nations (Gen. 35:11), that Abraham's seed shall ~~spread~~ be as numerous as the sands of the sea and shall "spread abroad to the west, and to the east, to the north, and to the south..." (Gen. 28:14-15) Isaiah the prophet wrote that the outcasts of Israel would be spread across the face of the earth as would be "the dispersed of Judah." (Isa. 11:11-13). This distinguishing the Israelites from the Jews. Isaiah said that the Israelites would be scattered to the ends of the earth, and that in this way God would increase the people. (Isa. 26:15) Zechariah wrote that the descendants of the Israelites would remember God in far countries. (Zech. 10:7-11) The Psalmist wrote that Israel was to receive "...the uttermost parts of the earth for a possession." (Psalm 2:8) Even the apostles in the New Testament books addressed their letters to Israelites who were "scattered abroad." (James 1:1) It was prophesied that in the course of their migrations the Israelites would forget who they were. Isaiah wrote- "For the Lord hath poured out upon you the spirit of deep sleep, and hath closed your eyes..." (Isa. 29:10) "I will bring the blind by a way that they know not; I will lead them on paths they have not known..." (Isa.

42:16). The book of Romans declares that blindness in part has happened to Israel. The tribe of adoption was Joseph's, carried through the blessings of Jacob to his sons Ephraim and Manesseh. These two patriarchs were prophesied to ~~xxx~~ have descendants that would establish the mightiest Israelite empires this world would ever know, and these were the British Empire (Manesseh) and the United States (Ephraim)...Manesseh means forgetful and Ephraim means doubly fruitful. The Old Testament prophets declared that the Israelites would migrate to the ends of the earth. to "...the isles that are afar off," (Isa. 66:19) and to the island and coasts to the far north and to the west. (Isa. 49:1-3). Even to the ends of the earth. (Isa. 43:2, 5-6, 41:1, 8-9). The United States as Ephraim was prophesied by Moses:

"His glory is like the firstling [calf] of his bullock, and his horns are like the horns of unicorns: with them he shall push the people together to the ends of the earth..." (Deuteronomy 33:17)

In the mindset of antiquity the ends of the earth is where the sun set, and when the biblical authors make this statement they are always referring ~~to~~ to the west. The Unicorn is one of the primary heraldic motifs of Great ~~Britain~~ Britain, or England, the Land of the Angles. The old Hebrew word for calf (firstling) was engle. (14) The Unicorn was the ancient crest of the Kings of Israel. (15) The Americans inherited a vast continental land that was only sparsely ~~populated~~ populated with warring tribes of indians. The American expansion into the west also is without historical precedent, for the Anglo-Celts led the march but were quickly followed by millions of other Europeans also all descended from the 13 Tribes of Israel. In the year 745 BC the Ten Tribes were forcibly deported out of Israel by the Assyrians, an event well-documented in biblical and secular history and verified extensively in the archeological records as shown in Chronicon I. 745 BC began the Israelite migrations and the fulfillment of hundreds of biblical prophecies, that being beginning a 2520 year countdown, or 360x7 years, to the birth of the United States of American in 1776 AD. The sum of 2520 is prominent in Hebrew prophetic literature.

The Puritans landed at Plymouth Rock in 1620 AD, exactly 156 years priorly, or 144x13 months before 1776. The 13 Colonies shadow the 13 Tribes of Israel, but are themselves in North America foreshadowed by the 13 Clans ~~of~~ of the Maya who came from North America. The United States was founded 1300 after the Fall of Rome in 476 AD which fell to the German ancestors of the Anglo-Saxons, the forefathers of the English. The USA adopted Latin as the language of the courts, the scientific and medical vernaculars and even copied much of its system of government in the form of republicanism. It is not coincidence but Providence that in 1776 Edward Gibbon, the famed English historian, published his epic & Decline and Fall of the Roman Empire, a masterpiece of literature and history unrivalled today in several volumes. Of further significance is that Adam Smith in this same year of 1776 published his Wealth of Nations, long considered the Bible of international commerce, a text that taught the governments of the world the benefits of commercialism and capitalism in international trade. (16)

Lastly, the Great Seal of the United States would soon be designed and be that of the Great Pyramid of Egypt, which stands at a geometrical height of 5814 Pyramid Inches. The actual height is 5448 inches, however, once the Chief Cornerstone is placed upon the flat apex of the structure the intended height is 5814, by intended is meant fulfilled. The year 1776 is precisely 5814 years of the orbital Chronology begun in 4039 BC when our planet adopted its present orbit around the sun and homo sapiens spaiens was directly created by the Anunnaki (see Chronicon I). 1776 AD is also 4590 Anno Pyramid, 4590 years after the completion of the Great Pyramid in 2815 BC (1080 AM): 4590 being 153x30. The sum of 153 in biblical gematria means SONS OF GOD and ~~xxx~~ the New Testament records associate it with Christianity.

Captain John Paul Jones sailed to France, then to Scotland and England in the Ranger, capturing a British warship named Drake off the coast of Ireland. Flying the American flag, this was the first time foreign government recognized the Stars & Stripes. (1) France now entered the American War of Independence, aiding the colonies against ~~XXXXXX~~ Britain. The French navy under Admiral Joseph de Grasse won a great naval battle against the British at Sandy Hook, one of the very few French naval victories over England. (2) The United States adopts as its Great Seal the Great Pyramid and Eye icon, first depicted upon a 50-dollar Colonial Note. Also on the Great Seal was a depiction of the Phoenix, the choice of Benjamin Franklin, who believed that the Eagle was a bad choice, a bird unclean and of evil disposition. So prominent was the Phoenix ideal in early American minds that the very first American steamship put to sea was the vessel called Phoenix from Hoboken, New York to Philadelphia, right after the turn of the 19th century. (3) The French mourn the death of Francois Marie Arouet, better known to all as Voltaire. In the Jewish Chronology that holds as its Year One the year 3671 BC, this year was 5448, paralleling the present height of the Great Pyramid in Pyramid Inches as demonstrated in many books on the subject.

Spain entered the American War against Britain as an ally of France in the hope of gaining back some of their colonial holdings abroad. Serapis and the Countess of Scarborough while he sailed the Poor Richard. Jones exchanged fire with two warships and won. The British captain had called out to Jones and John Paul Jones answered in what became the famous American war slogan- "I have not yet begun to fight!" (2)

Tired of British abuses at sea and still angry at losing New Amsterdam to the British (now called New York), the Dutch of Holland joined Denmark, Sweden, Portugal and Russia in the League of Armed Neutrality, an agreement to fire on British ships rather than allowing them to board. Previously because of British naval superiority European nations submitted to the practice of boarding. In A Patriot's History of the United States, L. Schweikart and M. Allen wrote- "In an amazing display of diplomatic ineptitude, Britain had managed to unite

all of the major navies of the world against its quest to blockade a group of colonies that lacked a navy of their own." (1) This was exactly 50 jubilees (2500 years) after the last of the Ten Tribes of Israel were forcibly deported out of the land and into Assyria and its frontiers. When looked at over the course of ~~1000~~ millennia, the entire American Revolutionary War was in essence an Israelite Civil War with its youngest tribe emerging powerfully on the world scene.

This was redesigned by William Barton, a Phoenix in flames on one side with the Great Pyramid and Eye on the other. (1) It will not be changed for 120 years, in the 1902 AD, the exact year planet Phoenix passes through the inner solar system and bathes the entire world in a blanket of cosmic dust. The olive branch and the 13 arrows are ancient Israelite symbols. (2) At this time the people of the infant United States believed that the birth of their new nation in North America was by divine inspiration. Two particular passages in the Old Testament were believed to refer directly to themselves: Jeremiah 16:13 reads, "I will cast you out of this land into a land that thou knowest not, neither ye nor your fathers..." Also, Deuteronomy 7:6, which reads, "For thou art a holy people unto the Lord thy God: the Lord thy God hath chosen thee to be a special people unto Himself, above all people that are upon the face of the earth." The warnings about the Illuminati and their plans were thus downplayed, agents of the Illuminati already in strategic positions around the world. Napolean Bonaparte, a Corsican, led 70,000 French troops into Egypt and defeated the Turks at the Battle of the Pyramids, which was not really fought in the vicinity of the pyramids at all. Napolean's train included many scientists. A mathematician with the French surveyors studying the ruins in Egypt measured the Great Pyramid's dimensions and concluded that there was enough stonework to build a wall nine feet high around the whole of France. Napolean said, "I feel myself driven towards an end that I do not know. As soon as I shall have reached it, as soon as I shall become unnecessary, an atom will ~~ix~~ suffice to shatter me. Napolean of France sold the French territories of North America west of the United States to the newborn nation. Known as the Lousinana Purchase the increase in territory doubled the geographical boundaries of the United States. This move fulfilled an eschatological type found in the biblical records. The firstborn of Jacob was Reuben, who was unstable as water though strong. The birthright nation should have been France, from the Franks, the people of Charlemagne, the first people to establish a European Empire after the Fall of Rome. But Reuben lost the birthright and in the Book of Jasher and Genesis we learn that the birthright passed to the last born, in fact, the sons of Joseph, son of Jacob, in Egypt. The NewMadrid earthquakes rocked the United States in a series of the most widespread and powerful earthquakes on record. The epicenter was located at New Madrid on the Mississippi river in Missouri. Quake shocks were felt as far as New York and Florida with church bells rings of themselves in Virginia. The quakes occurred in late 1811 after the appearance of the Great Comet. At one point the Mississippi river was observed to flow backwards and in Kentucky the renowned naturalist John James Audubon and others heard a roar in the sky thinking it was a tornado. They observed a darkening of the sky and then a brightening, the darkness strange and unusual. (1) Interestingly, the ancient Egyptian number for cataclysm was 2448 as seen in Chronicon I, which was the year of the Exodus and disasters of the Plagues on the Annus Mundi calendar, being 1447 BC. Counting from the first English settlement of permanence in North America, Jamestown in 1607, passed 204 years to 1811 New Madrid Quakes, or 2448 months. In this same year the Charter for the Bank of the United States ran out, a charter owned by the Rothschilds. Nathan Rothschild threatens that America will be embroiled in a terrible ~~war~~, even be subjected back under colonial status, if the charter was not renewed. (2) Even by this date the House of Rothschild, begun from the Jew Mayer ~~Amschel~~ ~~Amschel~~ Amschel, already exercised internation power throughout Europe.

The War of 1812 begins between British Canada and the United States from June 18th to December 24th, 1814. The people of the United States called it the Second War for American Independence. The British burned the city of Washington DC and the White House. Five weeks after the New Madrid quakes in 1811, in January 1812 another earthquake shook the eastern USA, followed by a sond quake, then a third and far more destructive quake on February 7th that was felt over 1.5 million square miles. The British war machine was from money borrowed from the Rothschilds but their war against Napoleon greatly diminished their American war effort. (1) Napoleon sought to invade Russia and marched 422,000 soldiers east in the greatest disaster of his illustrious career. Freezing temperatures and typhus epidemic ensured that only 10,000 men returned from the failed invasion. (2) Another comet appeared in this year.
