# How does the plan work?

## You choose

Choose the minimum amount you need to meet your future goals. This will be your Sum Assured. This amount is guaranteed to be paid on maturity or death, whichever is earlier.

Choose your policy term depending on when you expect the financial goal that you are saving for, to fall due.

Choose premium payment term and frequency based on how frequently and for how long you wish to pay.

Choose a bonus option - Early Cash, if you wish to receive an annual income stream starting from the 1<sup>st</sup> policy anniversary and a lump sum on maturity or Super Growth if you wish to grow your cash bonuses if declared at compounding rates to get an enhanced lump sum on maturity.

Decide if you want additional protection and choose riders as required.

## You commit

Start your policy by paying your premium.

Continue your policy by paying premiums as per chosen schedule.

## We deliver

We will declare bonuses every year which is guaranteed to be a minimum of 3.5% of the sum assured p.a. With the Early Cash option, this cash bonus if declared is paid out to you annually and with the Super Growth option, the cash bonus if declared accumulates at annually compounding rates and paid out at maturity. Cash Bonuses are declared on Sum Assured and accumulated Cash Bonuses if declared. Terminal Bonus too is paid on accumulated cash bonuses if declared.

On surviving the policy term, you will also receive the maturity sum assured in lump sum along with accumulated cash bonuses, if declared, and terminal bonus, if declared.

In case of unfortunate death of the life assured during the policy term, the Nominee(s)/Beneficiary(ies) will receive the Death Benefit.

## Grace period

We understand that sometimes due to unavoidable circumstances you might find it difficult to pay your premiums on time. Don't worry, we got you covered!

We allow a grace period of 30 days for payment of premium for non-monthly modes and 15 days for monthly mode. Moreover, in case the life assured dies during this grace period and the premium for that period is due, we still provide you the life cover and the death benefit shall be paid to the Nominee(s)/ Beneficiary(ies) after deducting the said unpaid premium.

If the premium remains unpaid at the expiry of the Grace Period, the policy will lapse provided the policy has not acquired paid-up value. If the policy has acquired paid-up value, the policy will not lapse but will continue with the reduced paid-up benefits.

## Lapse

We want you to get the maximum benefits out of your policy and hence, advise you to pay your premiums regularly. However, in case the premium remains unpaid at the expiry of the Grace Period during the first two years, the policy will lapse and no benefits will be paid.

In case the premium remains unpaid at the expiry of the Grace Period after the first two policy years, provided that the premiums of the first two years have been paid in full, the policy status will change to paid up. This paid-up policy will then continue up to the expiry of the Policy Term or till the death of the Life Assured, whichever is earlier.

## Paid-up value

As mentioned above in the Lapse section, even if you discontinue paying your premiums but have paid at least two years' premium in full, your policy will get converted into a paid-up policy. Under paid-up policy, all your benefits (i.e. Death Benefit and Maturity Benefit) will reduce proportionately.

The proportionately reduced benefits will be calculated as follows-

### Paid-up Death Benefit

In case of the death of the life assured during the policy term, provided the policy is paid up, "Paid up Death Sum Assured" along with the accumulated cash bonuses, if declared till the date of paid up and terminal bonus, if declared, will be paid to the nominee(s) or beneficiary (ies)

$$\text{Paid-up Death Sum Assured} = \frac{\text{Total premiums paid}}{\text{Total premiums payable}} \times \text{Death Sum Assured}$$

### Paid-up Maturity Benefit

In case of survival of the life assured up to the end of the policy term, provided the policy is paid up, "Paid up Sum Assured" along with the accumulated Cash bonuses, if declared till the date of paid up and terminal bonus, if declared, will be paid on the date of maturity.

$$\text{Paid-up Sum Assured} = \frac{\text{Total premiums paid}}{\text{Total premiums payable}} \times \text{Sum Assured}$$

Bonus (if declared) will be accumulated while the policy is in force. No further bonus will be accumulated once the policy becomes paid up.

### Revival of lapsed and paid-up policies

We also provide you the option of restoring the full benefits in case of both a lapsed or a paid -up policy. A policy can be revived anytime within five years from the date of first unpaid premium as per the company's Board-approved underwriting policy by paying all outstanding premiums (from date of first unpaid premium to date of revival) together with interest at a rate as approved by IRDAI.

The revival interest rate is determined as the average annualized 10-year benchmark G-Sec Yield over the last 3 months before the review date & rounded up to the nearest 50 bps + 1.5% with a minimum cap of 8.5%. The interest rate shall be reviewed yearly on April 1<sup>st</sup> of each year. The current rate of revival interest rate is 6.5%+1.5% =8% with minimum of 8.5% i.e. 8.5%.

### Surrender Value

You have an option to surrender the policy before its maturity after premiums have been paid for at least 2 years. However, as you have bought this policy with specific needs and long-term goals, we would highly recommend you to continue this policy for the full term to reap the full benefits from the policy. In case of any financial emergency, you may take a loan against your policy instead of surrendering the policy.

On surrendering the policy, you will receive Surrender Value, which is higher of the Special Surrender Value (SSV) and the Guaranteed Surrender Value (GSV).

## Guaranteed Surrender Value (GSV)

The guaranteed surrender value is expressed as sum of guaranteed surrender value as a percentage of total premiums paid (excluding any extra and rider premiums and taxes) and surrender value as a percentage of total declared cash bonuses, if declared. The cash bonuses already paid if any shall be deducted before paying the benefit.

Guaranteed Surrender Value (As % of Total Premiums Paid)							
Policy Term (years)	10	12	12	15	12	15	15
Policy Year \ PPT (years)	6	6	8	8	10	10	15
1	0%	0%	0%	0%	0%	0%	0%
5	56%	56%	55%	55%	54%	54%	54%
10	90%	82%	80%	78%	75%	78%	75%
15				95%		92%	100%

Surrender Value (As % of Total declared Cash Bonuses if declared till the date of surrender less cash bonuses already paid)	
Outstanding Term (OT)*	GSV Factor
15 years	13%
10 years	17%
5 years	23%
1 year	28%

\*where Outstanding Term = Policy Term - Completed Years - 1

## Special Surrender Value (SSV)

The policies will be eligible for non-guaranteed Special Surrender Value which may be higher than the Guaranteed Surrender Value. The Special Surrender Value will depend on actual experience and prevailing and expected economic conditions. The company will pay higher of GSV or SSV as surrender value.

## Loans

Shriram Life is a service-oriented company that values its customers and responds quickly. We understand that there may be times when things are difficult financially. But don't worry! We are here for you. Instead of taking out high-interest loans from other financial institutions, you can avail loans on your policy at just 8.5% per year saving a significant amount of money.

We allow a maximum loan of up to 80% of the surrender value (if any). The Interest will accrue on the outstanding loan balance at a rate declared by the Company from time to time. If there is an outstanding loan balance, the accrued interest will be deducted from the policy proceeds before any benefit is paid out. The Company ensures that no in-force/fully paid-up policy will be canceled due to non-repayment of the loan.

The loan interest rate is determined as the Average Annualized 10-year benchmark G-Sec Yield (over the last 3 months prior to the review date & rounded up to the nearest 50 bps) + 1.5% with a minimum cap of 8.5%. The interest rate shall be reviewed yearly on the 1<sup>st</sup> of April of each year. The current rate of loan interest will be  $6.5\% + 1.5\% = 8\%$  with minimum of 8.5% i.e. 8.5% p.a.

For other than in-force and fully paid-up policies: In case the outstanding loan amount including interest exceeds the surrender value, the policy is foreclosed after giving intimation and reasonable opportunity to the policyholder to continue the policy.

Any change in the basis of determination of interest rate for policy loan can be done only after prior approval of the Authority.

## Terms & Conditions
