

Content and Submission Guidelines for the CHBarnettfamily.net Web Site

This site is intended primarily to provide family history information about the extended family and ancestors of Clarence & Lucy (Miller) Barnett. The stated purpose is accomplished primarily through use of a home page that gives a brief summary and provides links to auxiliary pages. The auxiliary pages contain downloadable documents and links to other relevant web sites and a guest book where visitors can post comments, questions and suggestions. All documents, photos and links are added only by the site administrator and should be submitted to that individual. The following guidelines are intended for those who may wish to provide such submissions:

1. The submitter of documents that represent substantial portions of previously published works must have and confirm the express permission of the author or other copyright holder.
2. All documents and photos they may contain must be in good taste, should not include sensitive or personal information about other family members, especially those still living, and should be appropriate to the educational purposes of this site.
3. Documents should be submitted in Word 97-2003 or pdf format and photos in jpeg format.
4. Links to other websites should include a brief (10 words or less) explanation of the purpose of that site (e.g., Early Barnett Family Photos, Missions Trip to Haiti, etc.), and should be for informational and educational (not commercial) purposes. Proposed links and descriptions should be sent to the website manager using standard email.
